

# App of the Future Workshop

FREE 1-Week Design and Prototype Engagement

The technology landscape is transforming at a pace never seen before and will continue to do so in the years to come. The case for digital transformation has never been so urgent. In fact, the next decade of economic performance for an organization will be defined by the speed and progress of their digital and cloud journey.

Companies across all industries are facing intense pressure from competitors offering newer, more modern software and cloud-based products and services. You face demands for richer features and visualizations.

You face cost limitations around development, infrastructure, and maintenance, and you need to upgrade or risk losing out in the marketplace.

In this engagement, Atmosera will conduct a design workshop to uncover key objectives, ideate on solutions, and create a rapid prototype or reference architecture for a new cloud-native app on Azure.

Atmosera, a Microsoft Gold Partner with advanced specializations in Application Modernization, Data, and Migration, has long experience in modernizing enterprise applications and data to the Azure cloud.

## Accelerate your journey to innovation with a modernized app and data landscape

In this engagement, our experts will review your existing application landscape, assess your current infrastructure and business/technical needs, and provide guidance and next steps for a path to modernizing your IT environment, accelerating time-to-market and driving new customer experiences.

### Example Delivery Process

### Final Deliverables

**Duration: 1 Week**      **Cost: FREE**

- Assessment review of the current IT set-up.
- Next steps for modernizing your tooling & processes.

## Atmosera can help you break down IT silos and accelerate application innovation
