Rapid start to full business integration

Proven methodology. Trusted partnership. Rapid results. Rand Group's rapid activation model for Field Service disrupts the traditional implementation cycle to activate Dynamics 365 Field Service in less than 60 days using industry led best practices and our years of experience deploying cloud solutions.

All inclusive. No surprises. Fixed fee.

- Ready-to-go package
- Proven implementation method
- **// Activate core business functions**
- Rapid user adoption
- Low maintenance

Rapid ROI from day one

Our Field Service rapid activation package will have your organization up and running on Dynamics 365 Field Service in less than 60 days with the ability to scale and expand as your business needs grow. With a fixed fee implementation package and additional Power Packs to choose from, you know what you are getting without any surprises or project overcharges.

Field Service's rapid activation model

Provisioning of Dynamics 365 Field Service and initial process walk through with key stakeholders in 5 days. Deliver onsite services with workflow automation and mobility.

Create understanding of the Field Service solution components to facilitate alignment with existing business processes and roles.

Targeted and customized training to help users quickly achieve proficiency with day-to-day usage of the system. The primary focus is to create ownership across the organization.

Migrate data from legacy systems then prepare to use Dynamics 365 Field Service as a production system. Continuous engagement with Rand Group through the process.
