Microsoft Endpoint Security Quick Start

Transform endpoint protection into an integrated and scalable platform

Is your organization heavily invested in endpoint security solutions? You can secure your devices and data and achieve advanced endpoint security management by integrating Microsoft Defender for Endpoint (MDE), Microsoft Endpoint Manager (MEM) and Microsoft Purview.

Ensure data isn't being exfiltrated

Ensure endpoints are secure regardless of their network

Entra Quick Start improves time to value

The Microsoft Endpoint Security Quick Start is a predictable and reliable program that allows you to immediately leverage your Microsoft investments. You'll receive high velocity, measurable outcomes and initial control frameworks for your endpoints inside MDE and MEM—at a fixed price in a fixed time frame.

PRICING AND DURATION

Save up to--% through Microsoft-funded incentives

Basic

- Configuration of MEM, MDE and Microsoft Purview onboarding
- Identify and prevent loss of data in motion on M365 managed endpoints
- Identify and stop threats in real-time with next-gen EDR
- Integration of Microsoft Endpoint DLP on managed devices

$300,000

12 weeks

Advanced

Includes all initiative in the basic option plus:

- Integration with the M365 E5 stack for a holistic endpoint security solution
- Configuration of advanced security policies inside Microsoft Endpoint Manager (MEM)

$350,000

14 weeks
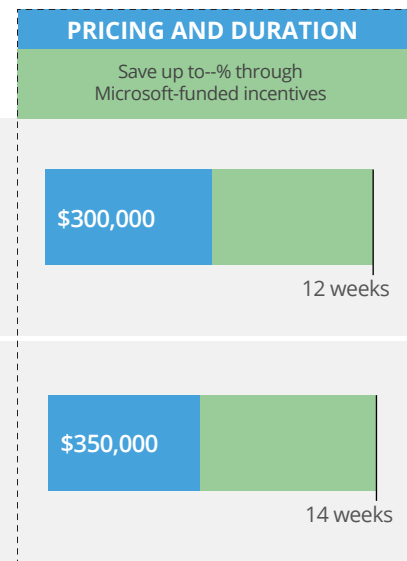

Quick Start deliverables

| Current endpoint vulnerability analysis | Demo integration with Microsoft Sentinel | A secure endpoint future state | Integration with endpoint DLP to protect sensitive files | Onboard to MEM for advanced capabilities | An achievable roadmap to meet security goals |
