Digital Leadership Program

Strengthen your digital skills and learn how to effectively work in new digital ways using Microsoft 365. This is an exclusive program to train your key people to communicate, collaborate, lead and work more effectively in todays' ever-changing workplace.

Overview

The Digital Leadership Program is an exclusive program, designed for targeted professionals in your organization that need a more focused training plan to strengthen their digital leadership.

Led by Storyals Productivity Coaches, participants get a personalized training plan, individual productivity coaching sessions, and workshops with their direct team to align on digital ways of working.

It's designed around the proven learning process of Storyals story-based training and complements the training courses included in Storyals training product.

Key Benefits

- Individual Digital Leadership Assessment
- Get an Individual Training Plan
- Quarterly 1-1 coaching sessions
- Group Workshops with your direct team
- Unlimited access to Q&A with your Productivity Coach

Personal 1-1 coaching and group workshops

Some users require special attention. Storyals offers 1-1 executive productivity coaching and group workshops, led by our experienced Productivity Coaches.

DRIVE CHANGE
OPTIMIZE LEARNING
BOOST PERFORMANCE

There's so much available, especially in Microsoft Teams, but very difficult to figure out best practice and keep up to date. So how do we train our employees? On our own, it would be practically impossible.

Victor D'Amato,
VP Corporate Controller at Ulbrich
