

LEVERAGE THE POWER OF AZURE WITH THE EXPERTISE AND SUPPORT OF ALL COVERED

Microsoft is quite possibly the most widely recognized name in computing technology, and its Azure service is one of the largest, fastest growing Public Clouds on the market.

In partnering with All Covered, a trusted Microsoft Azure Tier 1 Cloud Service Provider, you gain access to the power and scalability of the Azure Cloud, while leveraging the cloud experience, technical expertise and personalized service of an industry leading national managed services partner.

Whether you are already using Azure or looking to make the move, you don't have to take on infrastructure management or migration alone. We help assess your current environment and collaboratively build an Azure cloud strategy and solution that is scalable and optimized for your business needs now and into the future. As a true technology partner, your organization will have access to a dedicated cloud team 24X7X365 and a technology team to proactively manage your account and assist every step of the way. Whether your organization is best served by Public Cloud, Private Cloud or some combination of the two, working with All Covered as a Microsoft CSP partner means you'll get exactly the solutions you need, customized to your organizations requirements.

LET THE ALL COVERED CLOUD EXPERTS HELP MANAGE YOUR AZURE CLOUD SOLUTION

Support and escalation to Microsoft. Let All Covered act as a single point of contact for both technical and billing as well as assist with escalations to Microsoft.

Only pay for what you need and what you use. Easily scale your Azure environment as business needs change with guidance and best practices from our Azure experts.

Consolidate billing and Services. Bundle additional Cybersecurity, UTM and monitoring services to your account reducing your vendor footprint and vendor agreements to manage. Pay a single bill and have access to a single support team.

Control your environment. Better understand your cloud architecture and total costs to optimize your environment and plan for future projects. Work with a partner that understands Azure best practices and can help eliminate the potential for redundant resources and services.

A Dedicated Cloud Team. Leverage a dedicated team of cloud resources to assist with the migration and management of your Azure environment.

Governance and Oversight. Retain control of what you want to control, and hand off other IT aspects that are out of your scope or resources (time, management, availability, etc.) to All Covered.
