

Power BI Design: 4-Week Implementation

\$ Price – 10,000 USD

Enhance your Power BI solution with custom design, standardized reports, and ready-to-use templates to harness the gathered information and enable data-driven digital strategy.

Infopulse, as a Microsoft Power BI Solution Partner with Azure Expert MSP and Gold Partner status for Data Analytics and Data Platform, has the expertise to help you adapt your current Power BI solution to fit your enterprise – both in style and functionality.

Power BI Design Implementation enables a systematic approach to reports generation that allows achieving coherence in presentation layout and structure. Based on the enterprise's brand book, industry-specific demands to data analytics, and UX/UI best practices, the concept of unified

corporate reports helps business create better, more precise, and visually appealing documents.

Besides enabling a new crisp look of the reports, Infopulse experts reconsider the documents' functionality and the logic behind the data layout.

As a result of Power BI Design Implementation, you receive a set of great-looking, highly-efficient report templates that deliver maximum value and present insightful data analytics, as well as a documented design guide.

AGENDA INCLUDES THE FOLLOWING KEY STEPS:

1st Stage – Design Concept:

- 1 Consulting with stakeholders on the corporate style to familiarize with the company brand book.
- 2 Carefully evaluating the provided report sample.
- 3 Deciding on the report structure and inner logic to optimize data presentation.
- 4 Creating a new design for Power BI templates.
- 5 Thoroughly document the proposed concept.

2nd Stage – Power BI Design Implementation:

- 1 Transferring the report design to the current Power BI system.
- 2 Creating a set of templates in a .pbit file format.
- 3 Redesigning one legacy report according to the new standards.

DELIVERABLES:

- Up to 5 Power BI report templates
- 1 legacy Power BI report redesign
- Power BI report design guidelines

Agenda and deliverables can be adjusted according to the client's needs.

Note: the estimated price does not include Power BI license costs.
