

Enjoy better security with Microsoft 365 while getting ADEO core expertise

About MDR for Microsoft Defender:

ADEO in the world MSSP 250 ranking, provides services such as forensic information, managed cyber security services, risk & compliance, red, purple and blue teams in Turkey and foreign countries as the leader MDR service provider of Turkey.

What we offer

Managed Detection and Response (MDR) by Microsoft Defender for Endpoint is a cybersecurity service that combines technology and human expertise to perform threat hunting, monitoring and response. The main benefit of MDR is that it helps to quickly identify and limit the impact of threats without the need for additional personnel. The most basic characteristic of the services offered by MDR is to detect the cyber-attacks that cannot be caught and prevented by conventional protection solutions in detail and to intervene in these attacks at their source as much as possible. When we detect a threat, we help you respond, recover, and improve so that you can get back to business as usual.

Add an ally to your defense

Protecting companies and institutions against cyber-attacks, which are becoming more complex and difficult to resist day by day, requires a much more holistic defense approach. ADEO Managed Security Services (MSS) was created to monitor increasingly complex IT security infrastructures with high expertise. As a trusted ally, ADEO is on your side as you confront all these cyber threats.

Why Microsoft 365?

Save your company money

Microsoft 365 is available as a simple monthly subscription. Avoid large up-front costs for new software while moving the cost of IT from capital to operating expense. And without on-premises servers to run email, websites, and document storage, you can reduce energy costs and save by no longer purchasing new server hardware.

Scale your business quickly and flexibly

Microsoft 365 grows with you on the Microsoft Azure cloud. Adding a new user is as simple as buying an additional license, which allows access to business-critical technology on up to five PCs/Macs and five mobile devices. Microsoft 365 provides many plans to fit the right capability needs and price points for each user in your organization.

Technical support

Your Microsoft 365 subscription comes with 24/7 support from a global network of experts, with one-hour response for critical, service-impacting events.

Financially backed SLA

Get peace of mind knowing your services are available when you need them with a financially backed, 99.9% uptime service-level agreement.

Simplified IT management

Reduce headaches by reducing your IT infrastructure. Content lives safely in globally distributed data centers with continuous backup and disaster recovery abilities.

Key use cases

Business-class email

Build anything from lightweight websites to multi-tier cloud services that scale up as your traffic grows.

Cloud storage

Rely on geo-redundant cloud storage for backup, archiving, and disaster recovery.

Meet online

Get actionable insights from your data by taking advantage of a fully compatible, enterprise-ready Hadoop service.

Collaborate, chat privately

Accelerate your mobile app development by using a backend hosted on Microsoft Azure.

Microsoft 365

Microsoft 365 is a cloud-based subscription service that brings together the best tools for the way people work today. By combining best-in-class apps like Excel and Outlook with powerful cloud services like OneDrive and Microsoft Teams, Microsoft 365 lets anyone create and share anywhere on any device.
