

TABLEAU TO POWER BI MIGRATION

Migrate to Power BI from Tableau using our tried-and-tested migration methodology. Nous migration process includes feature mapping checklists, best practices templates and leverages NousMigrator™ - a tool that automates the migration of data extracts from Tableau to Power BI, accelerating the migration process and reducing overall migration costs.

OUR PROCESS

GET STARTED WITH A 3-WEEK PROOF OF CONCEPT

Week 1 - 3		Deliverables
<ul style="list-style-type: none"> Understand customers' requirements Migrate 2 select reports from Tableau to Power BI 	<ul style="list-style-type: none"> Create a data model based on Nous' best practices Create Power BI reports Publish to Power BI service Establish data refresh 	<ul style="list-style-type: none"> 2 Tableau reports recreated in Power BI Full migration roadmap including estimated timelines and magnitude of spend and savings with our exclusive tool 'Power Assist' - a migration cost calculator
