Microsoft 365 Legal and Compliance Assessment

Interactive assessment to optimize efficiency of Microsoft 365 for eDiscovery, defensible data migrations, records management, and information governance.

Key Use Cases

FORUM

Bring together cross-functional stakeholders to discuss current and future state planning and evaluate configuration options.

CURRENT STATE

Understand the client's current operational models, identify risks or opportunities for improvement.

RECOMMENDATIONS

Leverage Microsoft 365 to meet records management, eDiscovery, data governance, regulatory compliance goals and requirements.

Cross-functional knowledge

The primary goal of the Microsoft 365 Legal and Compliance Assessment Agenda is to provide cross-functional knowledge around Microsoft 365 and bridge the communication gap between legal, compliance, and technical implementation. The program is structured to enable corporate strategy synergies by helping legal mitigate risk and IT maximize their investment with Microsoft 365. We tailor each assessment to meet the specific focus area(s) needed for each client based on Lighthouse's proven method.

As strategic partners, Lighthouse and Microsoft provide visibility and expertise around Microsoft 365 within the legal and compliance space, as well as provide a robust program that helps organizations pave a path forward for a smooth transition.

Lighthouse translates complex legal needs into easily understood concepts

Assessment designed for your legal, compliance, and IT staff

This assessment brings together legal and compliance with IT for an actionable go-forward plan. This dynamic assessment provides:

- An in-depth review of legal and compliance key issues and concerns as well as a review of data sources.
- Hands-on overview of Microsoft 365 tools to ensure stakeholders have a clear understanding of functionality, capabilities, and potential feature gaps.
- Long-term recommendations to manage eDiscovery, defensible data migrations, records management, and information governance.
