Lighthouse Microsoft 365 Legal and Compliance Assessment

Industry Challenges

While many organizations have purchased Microsoft 365, many are not harnessing the full power of the platform.

In-house Legal and Compliance departments struggle to adopt, deploy, and manage Microsoft 365 features designed to support their programs.

Deployment is a traditional IT-driven where legal and compliance are not typically engaged until the end of the process.

Deep subject matter expertise is needed in both platform functionality and organizational requirements to help corporations operationalize Microsoft 365.

Microsoft 365 Legal and Compliance Assessment

Onsite assessment to optimize efficiency of Microsoft 365 for ediscovery, defensible data migrations, records management, and information governance.

Key Use Cases

FORUM

Bring together cross-functional stakeholders to discuss current and future state planning and evaluate configuration options.

CURRENT STATE

Understand the client's current operational models, identify risks or opportunities for improvement.

RECOMMENDATIONS

Leverage Microsoft 365 to meet records management, eDiscovery, data governance, regulatory compliance goals and requirements.

Lighthouse translates complex legal needs into easily understood concepts

Bridging the gap between legal compliance and IT

The primary goal of the Microsoft 365 Assessment Agenda is to provide cross-functional knowledge around Microsoft 365 and bridge the communication gap between legal, compliance, and technical implementation.

The program is structured to enable corporate strategy synergies by helping legal mitigate risk and IT maximize their investment with Microsoft 365.

We tailor each assessment to meet the specific focus area(s) needed for each client based on Lighthouse's proven method.

Advisory Assessment Deliverables

This assessment brings together legal and compliance with IT for an actionable go-forward plan. This assessment provides:

- An in-depth review of legal and compliance key issues and concerns as well as a review of data sources.
- Hands-on overview of Microsoft 365 tools to ensure stakeholders have clear understanding of functionality, capabilities, and potential feature gaps.
- Long-term recommendations to manage eDiscovery, defensible data migrations, records management, and information governance.

Client Case Study

Customer Challenge

A large multi-national pharmaceutical company discovered they were at a complete standstill in their Microsoft 365 implementation.

They recognized the issue was that the legal and compliance team and the IT team were not on the same page on the implementation. With the deadline date at risk and no clear solution, the company reached out to Lighthouse for guidance.

Solution & Results

Microsoft Field Sales team and Lighthouse conducted an assessment to educate the client's legal and IT teams around eDiscovery functionality within the Microsoft 365 product lines.

The assessment was extremely successful. It allowed Lighthouse to bring all the right constituencies together, educate the teams involved in the implementation, and clarify requirements.
