

Azure Landing Zones

Introducing BCN's Azure Landing Zones. A set of standardised Azure environment templates that BCN will provide, deploy, and configure to kickstart your organisations cloud journey.

What is a Landing Zone?

An Azure Landing Zone is a pre-configured environment that provides a **secure and scalable** foundation for deploying and managing cloud-based workloads. Including core components designed to support cloud-based workloads consistently and efficiently.

Key Benefits

- ✓ Repeatable
- ✓ Easily scalable
- ✓ Safe working parameters
- ✓ Accelerated deployment times
- ✓ Standardisation through automation
- ✓ Successful cloud journey foundations
- ✓ Best Practice Security, Governance & Policy
- ✓ Proven development methodology & configuration

Why do I need one?

1. Quickly and easily set up a secure and scalable Azure environment.

2. Consistently apply best practices across your Azure environment. Ensuring your workloads are secure, compliant and optimally managed.

3. Maximise the value of your cloud investment, by optimising your Azure services.

4. Accelerate your journey to the cloud, whilst improving the security, performance and value of your cloud-based workloads.

Why BCN for Azure?

BCN Group are a Microsoft Solutions Partner. Our designations across infrastructure, Data & AI, Digital & App Innovation, and Modern Work recognise our broad capability and success in high demand cloud solution areas across the Azure & Microsoft stack.
