

Viva Deployment Accelerator

Transform your hybrid work experience to accelerate learning, increase productivity, organize knowledge, and effectively communicate with your employees.

The driving force of your business is **your people**.

21% increase in profitability due to more employee engagement

94% of employee satisfaction due to learning and development resources

12X retention of employees with their organization

86% boost in engagement from digital training programs

Neudesic's Viva Deployment Accelerator provides organizations with a comprehensive employee experience platform that empowers employees by connecting them over learning, wellbeing, collaboration, and growth. Neudesic leverages the Microsoft Viva suite to provide a **highly customizable and extensible platform** accessible from anywhere to fit your organization's unique needs.

Boosting innovation in a hybrid setting with five modules:

Viva Connections

Keep employees engaged and informed with unified collaboration tools

Viva Insights

Empower employees to balance their productivity and wellbeing

Viva Goals

Position your organization's strategic objectives to improve employee motivation and increase execution velocity

Viva Topics

Improve employee experience by connecting them with knowledge and subject matter experts

Viva Learning

Enhance skillsets and knowledge with access to key learning sources

Viva Engage

Shape your organization's culture by unlocking communication and engagement opportunities for everyone

Get started on your employee experience journey
