

Integrating tools in a single solution.

With the aim of empowering employees to establish policies, roles, responsibilities and planning according to the business area, and to get the most out of the Office 365 platform, we present Adology Teams.

ADOLOGY

It is a solution created by Consein, which facilitates the use and adoption of Office 365. It is based on the integration of various Office 365 tools as if they were pieces and NOT as individual solutions.

- Team work and collaboration
- Process Automation in the HR Department.
- Leveraging Office 365 Knowledge and Tools
- Training Segmented by Department

Team work and collaboration:

- Set of collaborative tools according to each department (HR, Marketing, Legal, Sales, IT, others) starting in HR.

Process Automation in the HR Department:

- Improve business processes, delegate repetitive tasks, secure through the Microsoft proposal. Easy to implement.
- It uses the resources that the client already owns. infinite scalability. manageable by the client. offers monitoring over time.

Training Segmented by Department

- Segmented training structure, Training content prepared by specialists in the area, unprecedented.

Teamwork and Collaboration, Process Automation, Segmented Training.
