

HHSS

(HOME HEALTH SCHEDULING SOLUTION)

WHO WE ARE

Winning Formula is a 100% onshore Australian Consulting and Technology business, providing services to leading Australian and global organisations.

We combine **Process Excellence** principles, **Change Management** and cutting-edge **Technologies** to deliver holistic and sustainable solutions for the most complex needs.

Our services include:

- Advisory
- Digital Transformation
- Robotics & AI
- Managed Services

OUR ASSESSMENT OFFER

- 1) Contact us to arrange a short 3-day assessment to discuss your needs for scheduling your health resources offering at-home care for your patients.
- 2) We will work with you and your nominated team members to map your current scheduling processes, understand the capabilities of your scheduling teams and capture your requirements for an ideal solution to schedule your health and allied health resources for your at-home patients.
- 3) By the end of the 3 days, we would have assessed your needs against our cutting edge HHSS solution and produced a costed implementation plan to deploy our solution including training your users and if/as required build any customisation including integration with your existing systems.

Deliverables:

- **Documentation of your current process** for your at-home scheduling processes
- **Documentation of your current technology ecosystem**
- **Assessment of your current team's scheduling capabilities**
- Document your **requirements** for the ideal at-home scheduling capabilities
- **Proposed Ideal State Architecture** for at-home scheduling to meet your requirements
- **Estimate** (time and cost) to reach your Ideal State

OUR APPROACH

- Kick off with key stakeholders to confirm assessment scope
- Shadow SMEs to understand and map current processes
- Engage with systems' stakeholders to capture existing technology ecosystem
- Document Ideal State requirements from key stakeholders
- Generate DRAFT option(s) for Ideal State architecture
- Incorporate feedback and generate FINAL architecture
- Generate estimate timeline and cost to deliver agreed Ideal State

YOUR ORGANISATION BENEFITS

- We will provide you with clear understanding of your current capabilities (Process, People and Technologies) and how to reach your Ideal State
- We will share best practice for at-home scheduling capabilities including an overview of our very own HHSS solution
- We will provide data-driven input for you to include in your business case to move to your Ideal State, detailing the benefits of investing into a modern solution including better patient care, better utilisation of your valuable resources and financial benefits
