Microsoft 365 Tenant to Tenant Migration

All Covered – IT Services from Konica Minolta

Microsoft 365 Tenant to Tenant Migration Offer Overview

Microsoft 365 Tenant to Tenant Migration

Objective

Let All Covered help you assess, plan and skillfully implement your Microsoft 365 Tenant to Tenant migration

Whether it is due to rebranding, an acquisition, merger or divestiture, a change in tenant geography or the need to move from commercial to GCC, All Covered's expert engineers can assess, plan and execute your smooth Microsoft 365 Tenant to Tenant transition.

Process

All Covered's Professional Services team can help by:

- Gathering initial requirements
- Reviewing existing environments
- Assessing services in use in the source tenant and validating all functionality is available in the destination
- Addressing Identity management along with Active Directory and Azure Active Directory synchronization options, including disconnecting from the source tenant
- Adjusting usernames and email addresses to properly reflect the desired endstate
- Establishing continuity of communication in email and Teams during the migration
- Reconfiguration of workstations for the new tenant
- Office Suite, Outlook, Teams and OneDrive reconfiguration
- Guiding end users with reconfiguring mobile devices
- Project management

Why Choose All Covered's Consulting Services?

- Certified Expertise
- Competitive Edge
- Innovative Solutions
- Stay Focused on Core Business Needs
- Learn from the Experts
- Save Money
