

LAB³

SIGNIFICANTLY ENHANCE YOUR SECURITY WITH INCREASED VISIBILITY AND RAPID THREAT RESPONSE

Stringent cybersecurity measures assured across LAB³ products with IRAP (Protected level), NZISM, and ISO27001 built-in by design and leveraging Microsoft standard offerings

As modern attacks become more sophisticated, it is essential that your security does too

3.5 million

The number of unfilled cybersecurity jobs grew to 3.5 million in 2021.¹

\$4.24 million

In 2021, the average cost of a data breach was \$4.24 million.²

63%

63% of organisations have experienced a data breach that disclosed regulated data.³

Attackers do not take time off. Your security solutions should not either. Automation is key.

Organisations everywhere are experiencing a critical skills gap. While they want to protect their data, they don't have the skilled workforce to do it.

As the cybersecurity landscape changes, so do compliance regulations. Organisations need to continuously comply with the highest regulatory standards and pass ongoing audits.

With a growing number of advanced cyberattacks, there is a critical need for comprehensive security along with 24x7 coverage alerts and incident response.

Protect critical infrastructure and strengthen your security posture with products that are secure by design

Drive maximum value and threat-hunting coverage with LAB³ Security. As-code deployments allow continuous monitoring and increase detection and remediation before considerable damage is done. Ensure 24x7 coverage at lower costs.

With automation, gain 24x7 security expertise and workplace, cloud, and hybrid protection with a homogeneous platform, aggregating all Microsoft security solutions under one enhanced umbrella. Retain data sovereignty with security managed from your tenant.

Keep your data safe and your environments operational by aligning with different regulations and compliance requirements that far surpass the Essential Eight, including IRAP (Protected level), NZISM, and ISO27001.

Security made easy

Proven efficiency

With ready-made frameworks and an as-code approach, it is possible to implement LAB³ Security in as few as 8 weeks. Having security built into your new systems and apps means you can safely go live sooner.

Cost optimization

Utilise all entitled security services under your Microsoft 365 licensing for greater cost optimization and operational efficiencies. Available as SaaS/PaaS, you can even take advantage of the Australian-based LAB³ Security Operations Centre.

Reputable partner

With 250-plus professionals and 5 Advanced Specialisations, LAB³ is an award-winning Microsoft partner ready to help you tackle your next security challenge. LAB³ delivered more than 40 successful enterprise and government uplifts in 2021.

TAKE ASSESSMENT

Discover the true extent of your threat exposure over your organisation's entire technology environment through a comprehensive Security Maturity Assessment with LAB³. Report provided within one week.
