The table on the left provides the per minute rates for **international dial-out as of 11/9/2016**.

Rates for tenants provisioned **in the United States are tax-inclusive**. Therefore, tenants paying these rates would not pay any additional telecom-related tax fees.

International dial-out rates are subject to change on a monthly basis and individual customer **rates are not locked** during the term of their agreement. Changes will be minimized where possible to avoid disruption to customers, while ensuring rates remain competitive with local market rates and conditions.

“Landline” calls are calls made to fixed lines connected to tangible wires, connected to the local telephone network, and grounded to a certain physical location.

“Mobile” calls are calls made to cellular lines, transmitted through radio waves, and not grounded to a certain physical location.

“Special Numbers” are calls made to premium or private numbers with rates that fall outside the typical landline or mobile rates of the country in which they are located.

\*Any currency conversion of these rates will be in accordance with Microsoft's worldwide FX policy.

The table on the left provides the per minute rates for **international dial-out as of 11/9/2016**.

Rates for tenants provisioned **outside of the United States are tax-exclusive**. Therefore, on top of these rates, tenants would still be required to pay any applicable telecom-related tax fees.

International dial-out rates are subject to change on a monthly basis and individual customer **rates are not locked** during the term of their agreement. Changes will be minimized where possible to avoid disruption to customers, while ensuring rates remain competitive with local market rates and conditions.

"Landline" calls are calls made to fixed lines connected to tangible wires, connected to the local telephone network, and grounded to a certain physical location.

"Mobile" calls are calls made to cellular lines, transmitted through radio waves, and not grounded to a certain physical location.

"Special Numbers" are calls made to premium or private numbers with rates that fall outside the typical landline or mobile rates of the country in which they are located.

\*Any currency conversion of these rates will be in accordance with Microsoft's worldwide FX policy.

The table on the left provides the per minute rates for **toll-free dial-in as of 11/9/2016**.

Rates for tenants **provisioned in the United States are tax-inclusive**. Therefore, tenants paying these rates would not pay any additional telecom-related tax fees.

International dial-in rates are subject to change on a monthly basis and individual customer **rates are not locked** during the term of their agreement. Changes will be minimized where possible to avoid disruption to customers, while ensuring rates remain competitive with local market rates and conditions. Updated rates will be shared a month prior to the change, consistent with other pricing changes.

"Landline" calls are calls made from fixed lines connected to tangible wires, connected to the local telephone network, and grounded to a certain physical location.

"Mobile" calls are calls made from cellular lines, transmitted through radio waves, and not grounded to a certain physical location.

"Special Numbers" are calls made from premium or private numbers with rates that fall outside the typical landline or mobile rates of the country in which they are located.

\*Any currency conversion of these rates will be in accordance with Microsoft's worldwide FX policy.

The table on the left provides the per minute rates for **toll-free dial-in as of 11/9/2016**.

Rates for tenants provisioned **outside of the United States are tax-exclusive**. Therefore, on top of these rates, tenants would still be required to pay any applicable telecom-related tax fees.

International dial-in rates are subject to change on a monthly basis and individual customer **rates are not locked** during the term of their agreement. Changes will be minimized where possible to avoid disruption to customers, while ensuring rates remain competitive with local market rates and conditions. Updated rates will be shared a month prior to the change, consistent with other pricing changes.

“Landline” calls are calls made from fixed lines connected to tangible wires, connected to the local telephone network, and grounded to a certain physical location.

“Mobile” calls are calls made from cellular lines, transmitted through radio waves, and not grounded to a certain physical location.

“Special Numbers” are calls made from premium or private numbers with rates that fall outside the typical landline or mobile rates of the country in which they are located.

\*Any currency conversion of these rates will be in accordance with Microsoft's worldwide FX policy.
