

Inmate Management System

Business Challenges:

The challenges on the management of prison systems have increased. More and more, organized crime takes advantage of new technologies and benefits brought by globalization to coordinate and lead their businesses from the furthest corners. The challenge of controlling inmates increases with the double responsibility of the prison system, which has to enforce the penalty of restriction of freedom at the same time it must ensure, under any circumstances, reintegration and the respect for human dignity of all prisoners. Aiming at identifying protocols, norms, and best practices to improve prison settings management.

Solution Benefits:

The Inmate Management solution from MERP based on Dynamics 365 platform helps to overcome your organization's most complex processing challenges with following benefits:

- Inmate management capture and manage identity information, charges, and service information. Complete profiling option with demographic details.
- Automates attendance tracking & progress of each session of the service.
- Provides annual, quarterly, Monthly reporting, audit, and records management.
- Integrated mug shot capturing system.
- Automatic Screening Process based on charges on inmate.
- Supports automated workflows to streamline inmate processes.
- Automatic inmate case assignment, task scheduling and reminders.
- Auto calculate the days in jail based on inmate case.
- Risk assessments and classifications.
- Sessions/Program schedules as per inmate risk/need level.
- Simplified uploads of documents, photos, and videos directly to the SharePoint.
- System is mobile and tablet friendly and cloud-ready module.
- Reduced risk of information lost as automatic backup is taken every day.
- Sort through active and archived requests, appeals, and documents with a quick and advanced integrated search engine
- Compare metrics, gain actionable insights, and improve your efficiency through interactive, role-based dashboards and analytic tools
- Give users access to only the information they need to see.
