WHAT IS POWER AUTOMATE?

Power Automate is a tool that helps you automate repetitive and manual tasks in your work or personal life without needing any coding skills. It allows you to create automated workflows that connect different apps and services, such as sending an email when a new file is added to a folder, or creating a task in your to-do list when you receive an email. With Power Automate, you can save time and increase your productivity by letting the tool handle the repetitive tasks, while you focus on more important things.

WHAT KIND OF RETURN CAN I EXPECT?

It truly depends on your organization's appetite for automation. Do you just have one idea, or do you have many and are interested in seeing many of them out? Do you have an understanding of the time spent on these tasks/rate of the person currently completing them? If so, it's very easy to put pen to paper.

Power Automate Adoption (Beginner)

Month	Week 1	Week 2	Week 3	Week 4
1	Process Assessment (Simple Tasks)	Process Assessment (Simple Tasks)	Interactive Build	Interactive Build
2	Process Assessment (Simple Tasks)	Process Assessment (Simple Tasks)	Interactive Build	Interactive Build
3	Template Builds	Template Builds	Template Builds	Template Builds
