SURFACE AS A SERVICE FROM JUST 60p A DAY

Microsoft Surface

From just 60p a day, your employees can work securely and collaboratively with the latest range of devices refreshed every three years on a **subscription service** with no early exit fees.

Our lifecycle services take care of asset tagging, zero touch deployment for image free provisioning, as well as Microsoft backed technical support and warranty for peace of mind.

> **The best modern desktop experience from just 60p a day complete with zero touch deployment, technical support and lifecycle management.**

Our comprehensive **Device as a Service** offering includes:

- Flexible subscription-based service with **no exit fees** [1]
- **Next business day** advanced replacement warranty on all devices
- Autopilot® enrolment for **Zero Touch deployment** to users
- **SLA based technical support** and configuration management as standard.
- CO2 off-setting to help with your **Carbon Neutral** initiatives

Surface Hub	Surface Pro	Surface Go	Surface Laptop	Laptop Studio	Surface Studio
£225 a month	£29 a month	£12 a month	£34 a month	£45 a month	£65 a month

Choose the devices for each department or persona.

Choose the, accessories and peripherals you need

Choose additional services such as asset tagging

Agree to and sign the subscription and the legal stuff

Service starts and devices shipped to users/offices.

True Subscription Service
Unlike most DaaS offers, our subscription service is a true subscription - with no early exit fees and freedom to true up and down as needed.

Zero Touch deployment - straight to the employee
Autopilot® zero touch deployment enrolment straight to the employee with minimal or no support needed from IT[-2].

Protection & Peace of Mind
We provide hardware maintenance and technical support to ensure ongoing device integrity.

Carbon ZERO
Carbon emissions generated throughout the lifecycle of your devices are offset through payments to UN climate change mitigation projects.

Security Data Erasure.
We can provide certified data erasure, validating the deletion of data from the device using Infosec Standard 5 (IS5), which is approved by the NCSC.

Financial Transparency
Reporting and intelligent finance, e-invoicing and spend control using the simple Online Service Management Tool.
