

smart case.

an Altia-ABM product

creating order out of chaos.

We develop specialist software to support investigation teams across the world to be more efficient and effective.

We provide investigators with a software solution to support their daily demands whether they be in the field or managing a team. We understand the power of together.

We have over 20 years' experience working with investigators in the public and private sectors (including hiring some of our own to join the Altia-ABM team).

smart case.

an Altia-ABM product

smartcase is a modern incident & investigations software solution that can be deployed in the cloud or on-premise, to meet your specific needs. It's;

- **Configurable** – everybody's different
- **Intuitive & easy to use** – you need your people to use it
- **Intelligent** – alerts, patterns, deadline management and more...keep informed
- **Visual** – see things from high level or deep dive...you chose
- **Affordable**

Every business operates in different ways, with different data sources, processes, measurements and reporting requirements. smartcase, by design, addresses these... off the shelf! We all know that building bespoke systems is both costly and time-consuming.

The smartcase approach allows you to record the information you need, in the format that works for you and manage your investigation process, keeping all stakeholders happy and informed along the way. It's inherently secure and is built from the many years of know how at Altia-ABM.

We will support you every step of the way to implement your new smartcase software, ensuring the transition has little impact on your day-to-day responsibilities.

We work with 100% of police forces in the UK along with many other organisations both in the UK and globally so we understand the investigation process and what pressures you face.

We work with a wide variety of teams including:

Fraud

HR

Loss prevention

Anti-counterfeiting

Security

Risk

Financial investigations

It's all about you.

You often have tight schedules, small teams - and even smaller budgets. But we know you're a fundamental function in your business

Our products help you to be as efficient and effective as possible without imposing new systems and processes on already busy colleagues. We know you have your own ways of working and we want to work with you to achieve more.

By design, smartcase fits around the way you work, bringing together your workload and needs, and our trusted software platform.

our values.

We believe that **quality customer service and support** is as important as our products.

We have the pedigree and breadth & depth of expertise that any business would be proud of, combined with the care and attention of a smaller focused business.

The power of these two approaches is summed up in our company values:

- Integrity
- Commitment
- Passion
- Trust
- Transparency
- Collaboration

our training.

Our experienced and friendly training team will help you **get the most** from smartcase.

Training is delivered for all levels of user from new users to experienced investigators and can be tailored to your specific needs.

We work across the UK, and in North and South America and Australasia, so training can take place at a location convenient to you.

After your initial training, we'll still be on-hand to support you – just give us a call.

Give us a call to find out how
we can support you.
