Gradebook that turns your data into decisions

SchoolWise brings all your assessment and learner data together in one place within Teams. Now you can have your term assessments from your MIS, together with Teams assignments, and the ability to add assessments in SchoolWise. This is coupled with actionable CAT4 data and the holistic view for teachers of every learner in their class.

We help you get to the heart of data so you can understand the impact of your work. Real-time actionable information that is easy to understand.

Learner Support makes sure that nobody is left behind

Track every learner's journey from the first time they walk into your school until the last time they leave. SchoolWise helps you build a holistic view of every learner with all the supports they need. No more folders, sticky notes or lost messages, SchoolWise stores all the information about each learner in one place.

Now you have specific, measurable and actionable data to guarantee the success of every individual in your school.
