

Smart Healthcare Facilities

Listen to the Heartbeat of your built world!

The solution leverages IoT to transform inert brick-and-mortar healthcare facilities into safer, more efficient, more sustainable assets, and brings an intrusion-free, opex-based, easy to deploy solution, providing immersive visual experience and real-time actionable insights to ensure a safe and comfortable environment for healthcare facility occupants.

Low Cost, SaaS Model
(No Upfront Costs)

Accelerated Time to Value
(< 1 Week Deployment Cycle)

Secure & Compliant
(HIPPA, GDPR, ISO/IEC 27018)

Healthcare Proven Tech
(No intrusion in medical assets)

USE CASES

 Air Quality Index

 Fridge Monitoring

 Asset Zoning

 Ambient Conditions

 Bed Occupancy

 Room Occupancy

 Touchfree Feedback

 Predictive Cleaning

 Activity Levels

 Decibel Monitoring

 Leak Detection

OUTCOMES

↑ Enhanced patient & staff experience

↓ Upto 25% reduction in operational cost

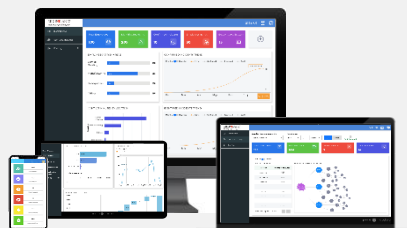

↓ Reduced downtime in healthcare operations

↑ Increased ESG compliance

↑ Upto 20% improvement in operating margin

↓ Reduced carbon footprint

An insightful visual experience of your facility to ensure safety and resilience
