

Zero Trust Design

Adopting a Zero Trust strategy can be tricky as there's so much to consider. But it doesn't have to be. Microsoft has the technology available to support you in adopting a Zero Trust strategy within your organisation. Our Zero Trust Design service helps you develop a low-level plan for a Zero Trust deployment strategy.

Align to Microsoft's Zero Trust best practice

Assess your progress in adopting a Zero Trust security strategy and determine your Hybrid Working readiness. We'll dive into the specific Microsoft tools available for you to start defending the six pillars of Zero Trust.

Build a clear roadmap

We'll provide you with a target state solution that aligns to your organisational requirements and the Microsoft Well Architected Framework ensuring a comprehensive plan detailing your adoption strategy.

Stakeholder walk- through

We'll walk you through the analysis requirements and proposed solution to understand the findings and recommendations and help inform a business decision on next steps.
