

# Azure as an Analytics Platform: 1-Day Workshop

This workshop will introduce you to the Microsoft AI platform. Together with our experts, we take a look at your goals and how to achieve them.

Analyzing data often turns into a challenge for companies, mostly due to an inflexible and fragmented architecture. This workshop will show you how to implement data science workflows with the help of the AI platform in Microsoft Azure and thus break new ground in data analysis.

This workshop is primarily aimed at decision-makers, analysts and data scientists who are considering using the Microsoft Azure AI Platform in their company or who would like to deepen their knowledge of this topic.

## Agenda:

- Introducing the Microsoft AI Platform
- A deeper look at your plans including your existing database and architecture
- Specification of your goals based on your individual requirements
- A look at various procedures for implementing the proposed solution.

## Terms & Conditions:

- Duration: 1-Day
- Language: English
- Location: virtual via Microsoft Teams
- Number of participants: to be determined with the customer
- Trainer: 2 experts
- Cost: 1550 € per day (Net price plus statutory VAT, includes electronic delivery of training materials)

## Optional: Proof of Concept

As a follow up to our Workshop, we offer a Proof of Concept, to demonstrate the feasibility of our relevant findings and outcomes in a test environment,
