eGroup + NUTANIX + ⊞ Microsoft Azure

PRODUCTIVITY WITHOUT LIMITS

Ensure user access to applications and data they need, on time, all the time.

MANAGEMENT + DESKTOP + APPLICATIONS   MOBILE + DESKTOP + APPLICATIONS

EXTEND TO THE CLOUD

Provide unified, integrated experience for both Administrators and End Users between On-Prem and Cloud.

ENTERPRISE   MANAGEMENT + DESKTOP + APPLICATIONS

CAPEX   OPEX

HOST IN THE CLOUD

Flexible deployment of extending or hosting, managed by IT.

CLOUD AS A SERVICE

Shift CapEx to OpEx for more consistent expenditures and walk away from hardware budgets.

YOUR BUSINESS NEVER SLOWS DOWN

Whether your apps are on-prem or in the Cloud, your app runs where it needs to with a single management interface.

FLEXIBLE

The capacity you need when you need it. Expand or contract on demand, scale up to meet the challenge and scale back to reduce the cost.

SECURE

Information never leaves its secure location in your data center or cloud. Seamless backup, recovery, and intrusion detection ensures it is always available.

RESILIENT

Your data is effortlessly protected in redundant locations across the country, continent and globe.

PRODUCTIVE

Your users are your business, keep them productive with a seamless user experience on-premises, in the cloud and on the go.

WE KEEP YOUR USERS EFFECTIVE.
MORE RESULTS AND LESS EFFORT.

Desktop Applications with ease.

Quickly deploy 1000's of Apps & desktops	Leverage the power of Microsoft Azure to quickly and easily deploy hundreds or thousands of applications and desktops as needed without the burdens of infrastructure management.
Erase slow infrastructure provisioning	Don't let new applications or business use cases be delayed by slow infrastructure provisioning. With Azure, quickly, securely and predictably provision the necessary resources to help with use adoption.
Offload management requirements	Utilize Nutanix Frame to remove management overhead of Virtual Apps and Desktop environments and focus only on the application workloads.
Resource like you never left the office	Use Nutanix Frame and Microsoft Azure to predictably turn up and down resources based on specific criteria to help with resource utilization.

ENABLE USERS TO SECURELY WORK FROM ANYWHERE ON ANY DEVICE WITH JUST A BROWSER
