- ▶ Pandemic
- ▶ Online / in school
- ▶ Personality / habits

A close-up photograph of a computer keyboard. The central focus is a large, bright green key with the word "Education" printed on it in a white, sans-serif font. Surrounding this key are other dark grey keys, including one with a question mark, one with a comma and semicolon, one with a left bracket, and one with a right bracket. The lighting creates soft shadows, giving the keys a three-dimensional appearance.

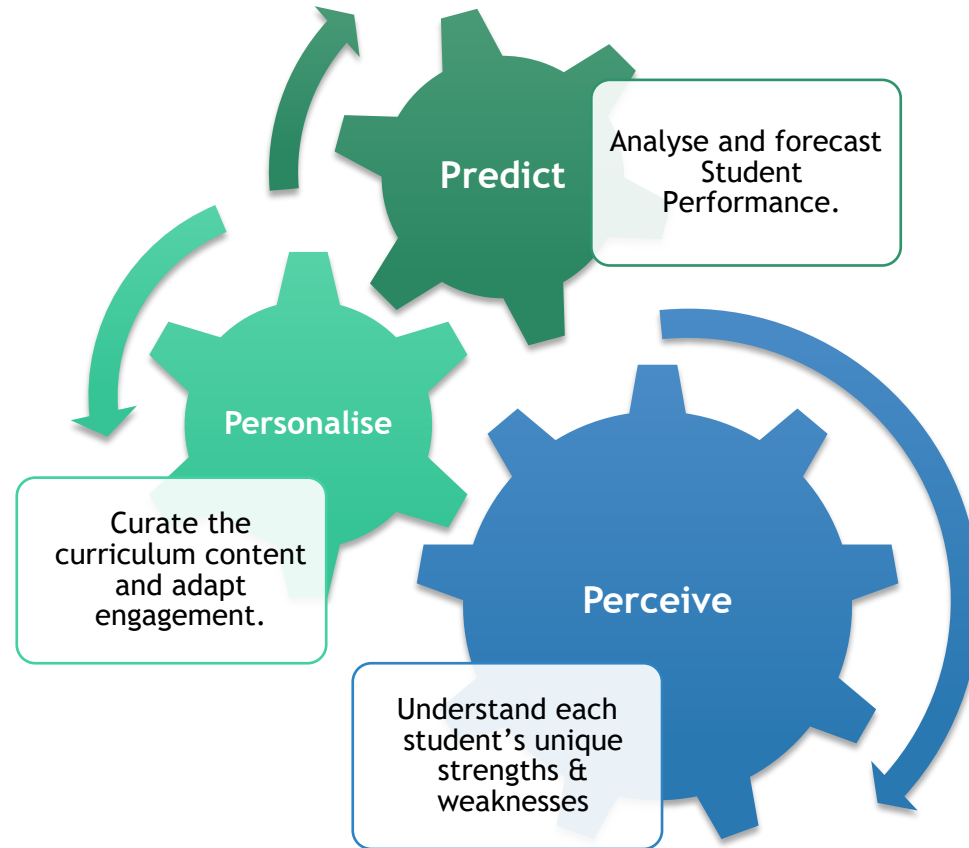

Education

A semi-transparent dark grey rectangular box containing white text. To the left of the box is a white question mark. The text describes the RevVED.ai platform.

RevVED.ai is a Software-as-a-Service platform that uses AI to enable educational institutions offer personalised learning across face-to-face and digital channels.

Shift

Academic Success Factors Driven by the Platform

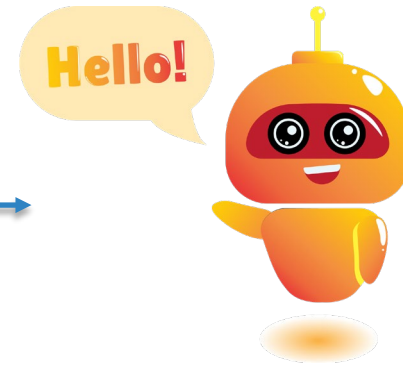

How it Works

Teaching Assistant
for Teachers

RevvEd AI
Engine

Study Buddy for
Students

Introducing the Student's Study Buddy

- ▶ Identifies strengths and weaknesses
- ▶ Creates personalised study plans adapted to each student
- ▶ Tracks homework and assignments
- ▶ Connects students to peer study groups
- ▶ Enhances engagement and focus
- ▶ Monitors physical and mental well-being

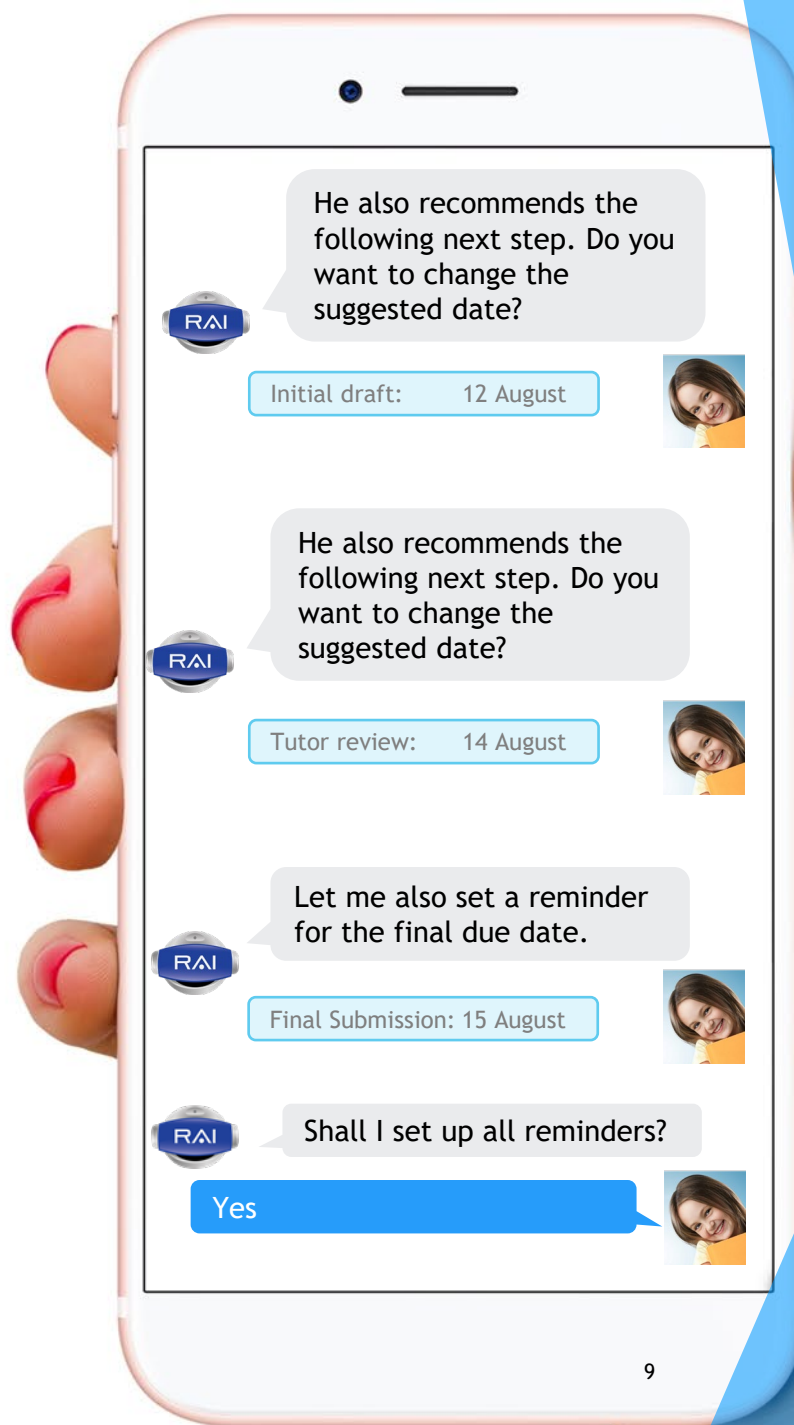

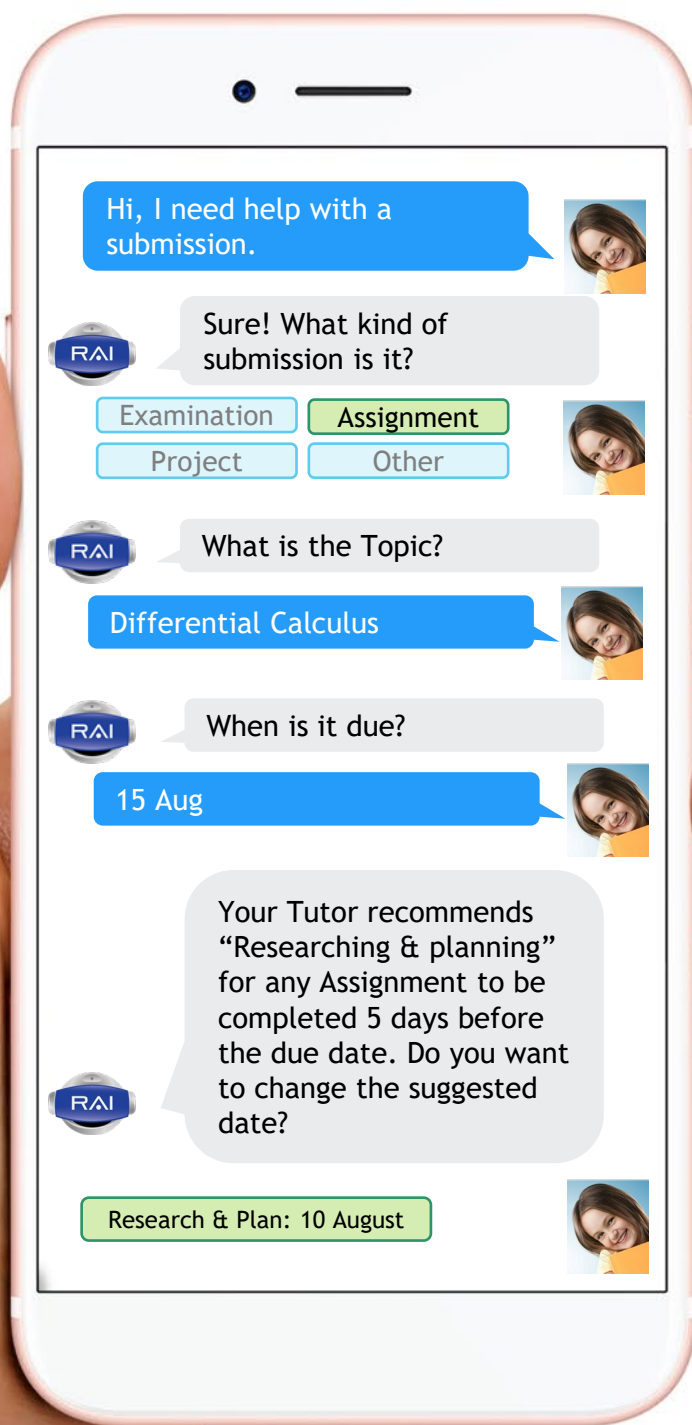

Introducing Digital Teaching Assistant for the Tutors

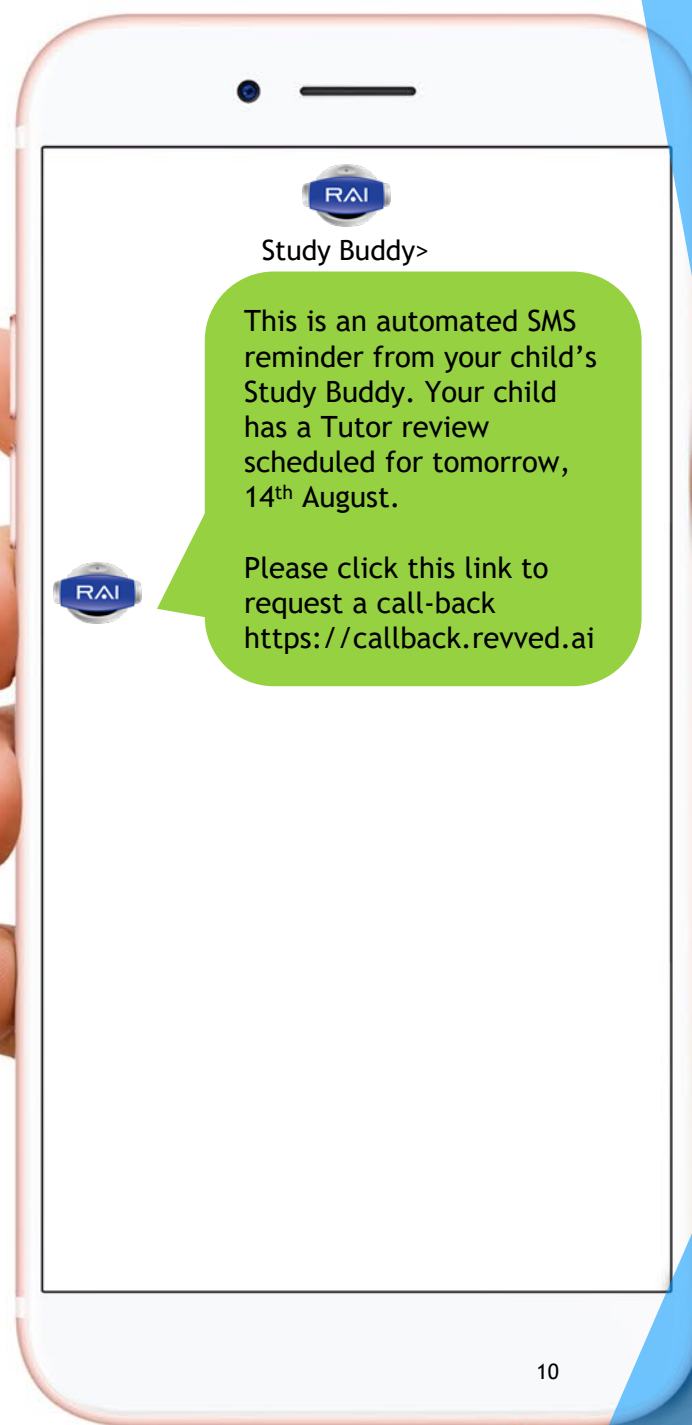

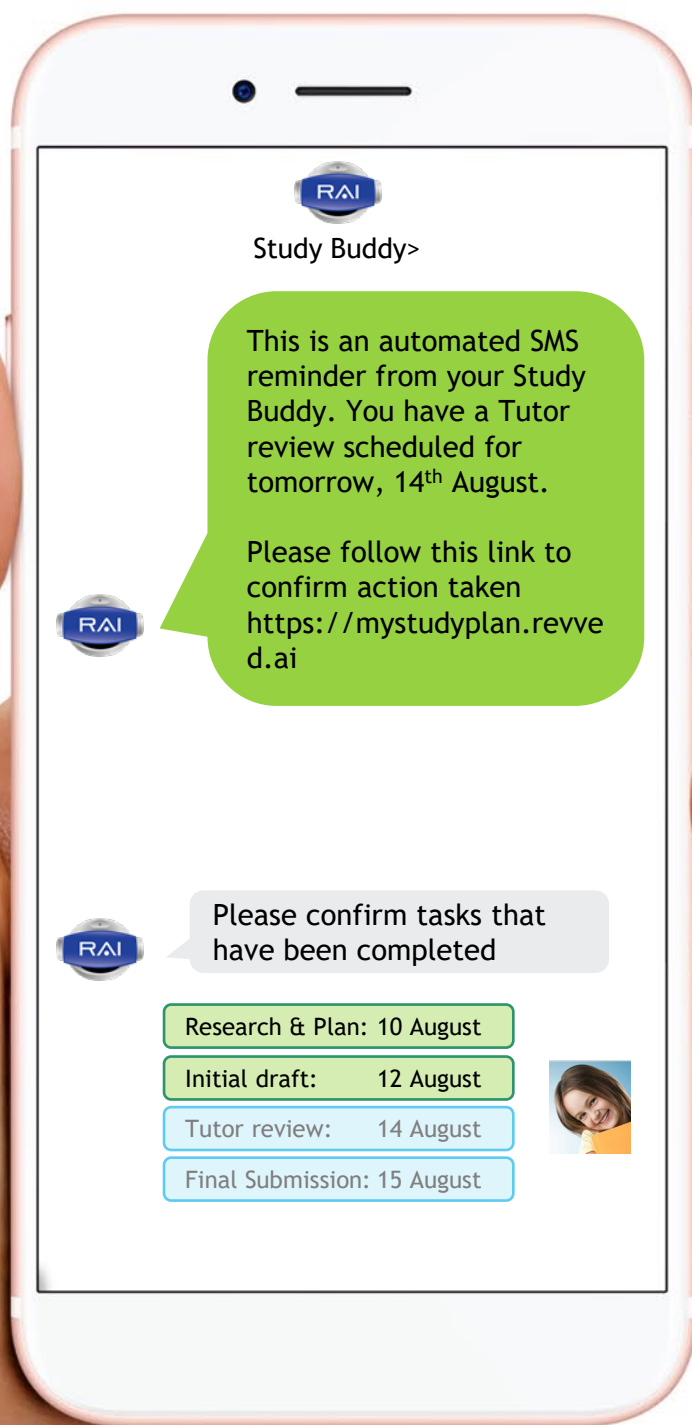

- ▶ Scheduling of classes, assignments, and tests
- ▶ Measures student engagement and progress
- ▶ Automates workflows, questions, paper corrections
- ▶ Schedules need-based human-coaching for specific Study Groups
- ▶ AI-enabled Testing & Proctoring
- ▶ Fetches data from legacy systems like Learning Management System and Student Management Systems.

Step 1: Setting up Conversation Flow
