LEARNING MANAGEMENT SYSTEM

Learning & Education Industry :

Educational institutions as well as corporates require cost effective, secure learning management system that provides administration, documentation, tracking, reporting and delivery of interactive educational courses and training programs for:

- Classroom/Instructor Led Training (ILT),
- E-Learning (Self-paced learning) and
- Online/Virtual Instructor Led Training (VILT).

CHALLENGES

Customer wants a cost-effective secure solution that incorporates all training modalities and ensures effectiveness of training. System should encompass the entire training delivery activities right from Candidate Registration to assessments, tracking, reporting and Certificate award.
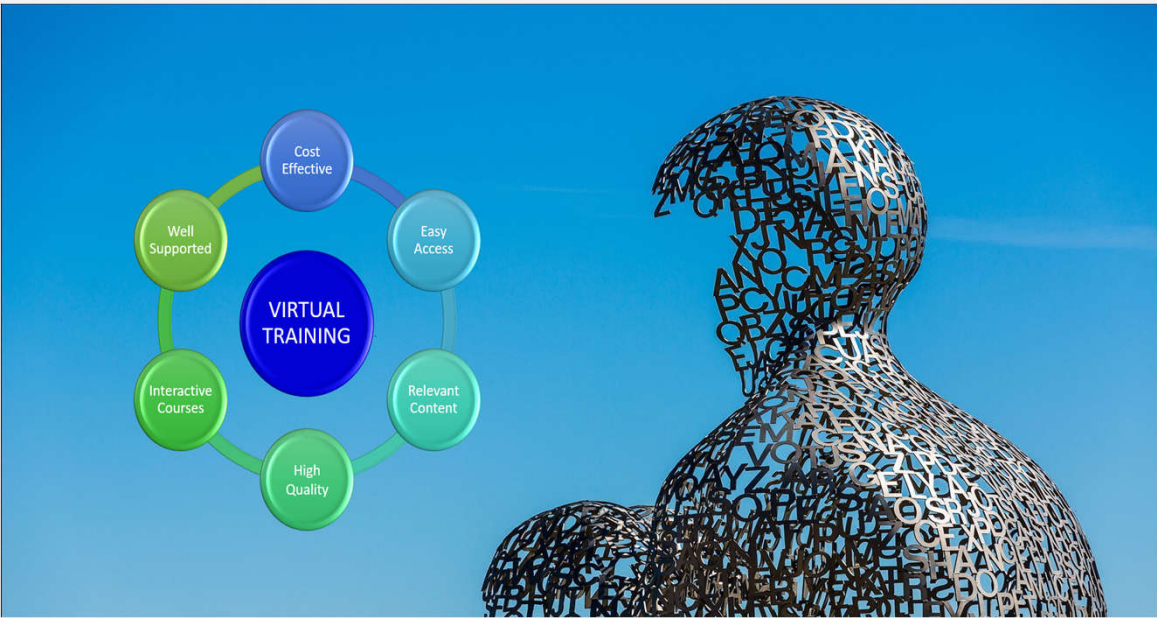

IDEAL SOLUTION

IITC VLearn is a web-based platform deployed on Microsoft Windows Azure Platform solution. The customizable LMS integrated with Microsoft Teams provides educators across all levels and industries with a highly functional, secure, flexible, and interoperable digital learning solution through open-source technology.

DESIRED OUTCOMES

VLearn LMS brings following benefits to the customers
- Create a strong educational environment
- Reduce costs on employees training
- Ensure rapid employee onboarding
- Improve HRM process
- Organize effective remote education

IITC

VLearn

To ensure LEARNING, is our OBJECTIVE;

To develop SKILLS, is our FOCUS.

SOLUTION BENEFIT

An easy-to-use cloud-based Learning management system (LMS) with focus on online training engagement and experiences.

[SOLUTION BENEFIT OR COMPONENT]

- User-friendly Interface
- Ease of Integration (Microsoft Teams, Plugins)
- Easy of Content Management (course creation, course build, user Management, support SCROM content)
- Ease of Access (web, mobile)
- Blended Learning Features (Online, Offline Learning)
- Assessment and Testing
- Reporting and Tracking
- Security (Azure Firewall, https)

[MICROSOFT INTEGRATION BENEFIT]

VLearn LMS deployed on Azure. Azure will provide following benefits to LMS Solutions
- Availability
- Scalability
- Disaster Recovery and Backup
- Security

VLearn will integrate with Microsoft Teams for Online Course Delivery
- Teams will Engage Teacher and students with virtual face-to-face connections and activities

[IITC] [VLearn] + [Azure Services]

VLearn is a web-based solution. Use of Microsoft Azure platform and Services solution maintains Availability, Security, Scalability, flexibility and stability.

Solution is Integrated with Microsoft Teams to deliver online training effectively.

Scalability using Azure IaaS

Deploying VLearn solution Azure IaaS VMs and IIS maintain highly scalable system to support and receive thousands of concurrent connections

Security using Azure Firewall

Azure Firewall provides high level of security to VLearn Web App

Collaboration Using SharePoint Online and Teams

VLearn LMS integrates with SharePoint online so we can add our class contents direct from SharePoint online.

VLearn LMS Integrates with Teams to Engage Teacher and students with virtual face-to-face connections and activities

Customer success: Bank Muscat – VILT Delivery

Thank you Team IITC!
Your learning management system includes every requirement for delivering quality training . The advantage of this VILT delivery is that, it is ALL IN ONE. Moreover, we have seen that learning environment is rich with multimedia tools, chat boxes, breakout rooms and instant access to support documents. Furthermore, the VILT is a cost-effective way to offer a wide range of training programs. The communication through Microsoft Teams was excellent and free from any issues. Thanks.

WIN RESULT

Customer confirmation to proceed with online training through VLearn LMS, integrated with MS Teams for VILT delivery.
