

Azure Optimisation Workshop

The Azure Optimisation Workshop gives you insight into the power of Microsoft cloud. It is the first step towards reducing spend, improving security and boosting technical performance. We'll help you take a step back to assess your current state against growth goals so that you can prioritise your next steps and understand how to get there. As a 2-hour consultation with an Azure expert, this workshop is the natural starting point to explore optimisation opportunities.

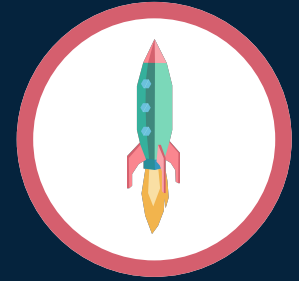

Develop a business case for optimising

Identify immediate cost savings available to you as the first steps to achieve optimisation. We will inform you on the achievable cost savings for optimising.

Identify next steps against best practice

Get a top-level view of what optimisation looks like against the Well Architected Framework (WAF). You'll understand how to balance and manage the five WAF pillars in order of your business prioritisation.

Confidence to take action

We believe in partnering with our customers and transferring knowledge. Be able to demonstrate the benefits of an optimised environment to business leadership.
