Event Management & Production

Multiple Venues

Enable audiences to watch the event in different venues at the same time

Live Relays of the London Symphony Orchestra

Simultaneously relayed the concerts at four venues under Leisure and Cultural Department

AEON Annual General Meeting 2020

- Held in two adjoining rooms
- Allow face-to-face communication

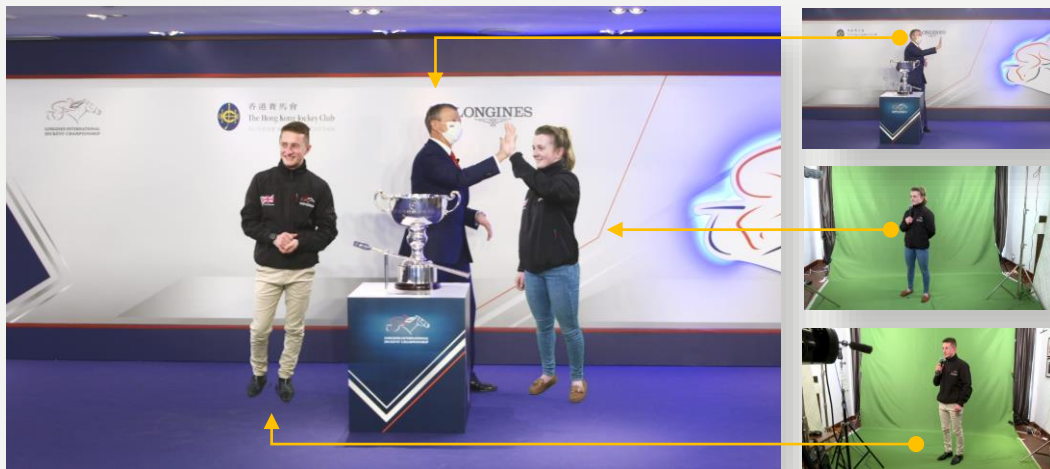

Event Management & Production

Virtual Stage / Teleporting / Chroma Key

Teleporting from Chroma key → Real Location

- Shooting in different (more than one) locations
- Transfer the Chroma key signal to match the real location's frame to create a fake interaction

Chroma Key → Virtual Stage

Without physical backdrop, Chroma key background for virtual backdrop

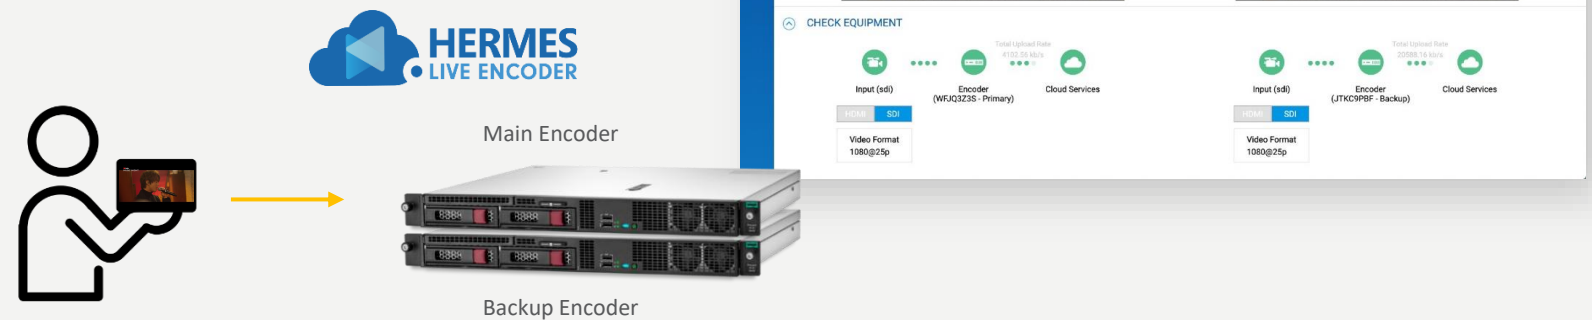

Event Management & Production

Pre-recorded Live

Playing pre-recorded and edited videos can more effectively ensure the smoothness of event

- Support High Availability (HA) setup for reliability
- Seamless Failover (When primary encoder cracked, it will automatically change to backup encoder signal)
- Safe and reliable

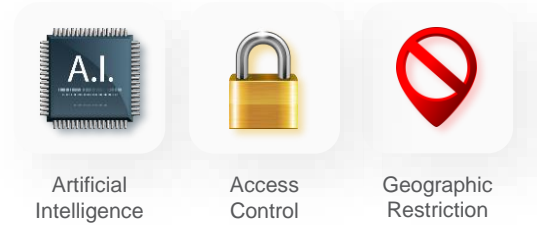

Section 3

Customization

Approve or Reject Questions

The screenshot shows the 'Approve or Reject Questions' interface. At the top, there's a header with the event title '[B23] Data is the New Oil: An International Perspective' and the time 'Thu 12 Jan 2023, 11:30 - 12:30'. Below the header, there are two tabs: 'Q&A' (selected) and 'Polling'. Under the 'Q&A' tab, there are two sections: 'Pending (6)' and 'Archived (2)'. The 'Pending' section lists four anonymous questions, each with a green checkmark icon and a red 'X' icon for moderation. A yellow box highlights the first question's icons, with a mouse cursor pointing at the checkmark. The 'Shortlisted (2)' section shows two questions that have been approved, each with a yellow star icon. At the bottom, there is a 'Submit question here' input field and a '0/300' character count.

Selected Question

Selected questions can be shown to speakers on TV screen

The screenshot shows the 'Selected Question' interface. It features the same header as the previous screenshot. Under the 'Q&A' tab, the 'Shortlisted (2)' section is visible. The first question, 'How HK may play the role with mainland's data security's law?', is highlighted with a green background, indicating it is the selected question. The second question, 'Views on the financial environment and the advantages that young people can offer when setting up a financial company in Hong Kong', is not highlighted. Below the questions, there is a 'Thanks' section.

Moderator can view and screen questions through mobile devices e.g. iPad

Public / End polling question and monitoring result

The screenshot shows the moderation interface for a poll titled "OCGL Promo 2022". The interface is split into two main sections: "Question Preview" and "Participant Results".

Question Preview: This section lists two questions. The first question is "1 How likely do you think innovation and technology would bring more benefits than risks to growth?". It is marked as "Launching" and has a timestamp of "Tue 17 Jan 2023, 15:31". The second question is "2 Testing", marked as "Question End" with a timestamp of "Tue 17 Jan 2023, 15:11". A red square icon is visible next to the first question.

Participant Results: This section shows the results for the first question, with 96 participants. The results are displayed as horizontal bars with corresponding percentages and labels in both English and Chinese:

| Response | Percentage |
|-------------------------|------------|
| (1) Very unlikely 很小程度上 | 5% |
| (2) Unlikely 較小程度上 | 9% |
| (3) Likely 較大程度上 | 52% |
| (4) Very likely 很大程度上 | 33% |
