

# Manage, Secure & Govern Your Collaboration Workspace with ezTeam

EnterprizID Provides Collaboration Security at Scale as a Microsoft certified Native SaaS App

EnterprizID's ezTeam is a Microsoft certified native SaaS application that enables organization-wide collaboration to run in a managed, secured and governed fashion. It boosts productivity through IT automation while driving sustainable end-user adoption of your Teams, all within your business's required policies & controls. ezTeam delivers self-service, flexible administration and management capabilities that are fast to deploy and easy to use for IT, compliance and business professionals.

*No PowerShell means no custom scripting*

*„Thanks to ezTeam, we are not only capable of centrally managing and supervising our entire Microsoft Teams workspace, but we are also finally free from deploying any custom scripts whenever something changes.“*

*- Johnson & Johnson*

## ezTeam: Collaboration Security and Governance as a Service

ezTeam removes all barriers – uncontrolled data sprawl, such as open access points, unattended links, orphaned teams, expired guests – to ensure these no longer hinder collaboration efforts in terms of business continuity, efficiency, security & compliance.

### Key features

#### Classification

No PowerShell needed! Add and remove classifications with ease

#### Policy Manager

Proactively shield Teams against unwanted members

#### Self-Service

Keep control but allow the business to manage Teams without IT support

#### Business Insights Action

Make better business decisions through a single-pane-of-glass view

#### Lifecycle Management

Control creation, reviews, ownership, archives & removal

#### User Dashboard

Understand your workspace and all associated activities

# Why Microsoft 365?

## Save your company money

Microsoft 365 is available as a simple monthly subscription. Avoid large up-front costs for new software while moving the cost of IT from capital to operating expense. And without on-premises servers to run email, websites, and document storage, you can reduce energy costs and save by no longer purchasing new server hardware.

## Scale your business quickly and flexibly

Microsoft 365 grows with you on the Microsoft Azure cloud. Adding a new user is as simple as buying an additional license, which allows access to business-critical technology on up to five PCs/Macs and five mobile devices. Microsoft 365 provides many plans to fit the right capability needs and price points for each user in your organization.

## Technical support

Your Microsoft 365 subscription comes with 24/7 support from a global network of experts, with one-hour response for critical, service-impacting events.

## Financially backed SLA

Get peace of mind knowing your services are available when you need them with a financially backed, 99.9% uptime service-level agreement.

## Simplified IT management

Reduce headaches by reducing your IT infrastructure. Content lives safely in globally distributed data centers with continuous backup and disaster recovery abilities.

Microsoft 365 is a cloud-based subscription service that brings together the best tools for the way people work today. By combining best-in-class apps like Excel and Outlook with powerful cloud services like OneDrive and Microsoft Teams, Microsoft 365 lets anyone create and share anywhere on any device.

## Key use cases

### Business-class email

Build anything from lightweight websites to multi-tier cloud services that scale up as your traffic grows.

### Cloud storage

Rely on geo-redundant cloud storage for backup, archiving, and disaster recovery.

### Meet online

Get actionable insights from your data by taking advantage of a fully compatible, enterprise-ready Hadoop service.

### Collaborate, chat privately

Accelerate your mobile app development by using a backend hosted on Microsoft Azure.
