

Extend Your Business Intelligence and Analytics

# trueChart

Extend Your Business Intelligence and Analytics

## WHAT IS trueChart?

Today businesses need the ability to instantly discover important insights and to be enabled to rapidly take informed and data-driven action. trueChart is designed to do exactly this for businesses where consistency of reporting key financial information is critical.

trueChart reduces the time required both to prepare reports, and also for the consumer to review and understand the content being presented by fully-enabling the International Business Communication Standards (IBCS®) in any corporate environment. Creating and displaying data using IBCS® within your BI results in uniform data visualizations that offer dynamic, meaningful reports giving your business a valuable strategic advantage.

Take advantage of trueChart's key features - Charting Engine, Charting Wizard, Cross-Platform Charting Library, Report Annotation System - to extend your Business Intelligence and Analytics Platform.

- 1 Commenting & Notation
- 2 Extensive Template Library
- 3 Dynamic Tables
- + Easy-to-use Wizards
- + IBCS® -Certified
- + Multi-Platform Support\*

\*Qlik, PowerBI, Excel, Jedox and any platform with an Open API

## TESTIMONIALS

LSGgroup

”

trueChart adds many improvements to our reporting processes. In addition to standardized IBCS® visualizations, and integrated commenting, the greatest added value is certainly the faster availability of our information.

**Alexander Schmitt**

Director Global Reporting - LSGgroup

swisscom

”

trueChart is the ideal solution to visualize our data in a consistent IBCS® format. It provides the optimized structure we need for presenting our income statement & other financial information in an efficient way.

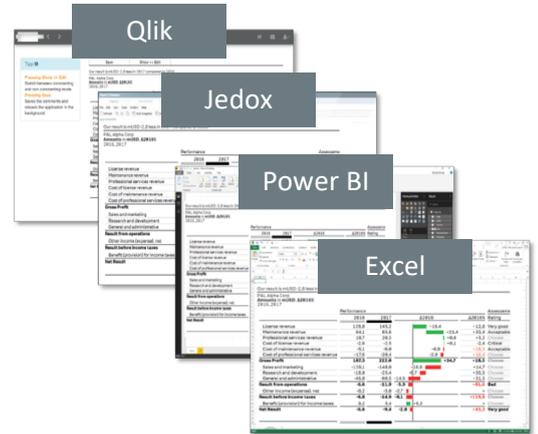

**Marco Rieben**

Head of Business Intelligence - Swisscom / localsearch

## POWERFUL IBCS® CHARTING ENGINE

## TESTIMONIALS

”

trueChart has significantly improved our decision-making processes – flexible navigation helps us rapidly find and filter our reports, uniformed IBCS® data visualization lets us quickly understand our numbers, and integrated commenting allows us to clearly explain key figures and trends.

**Steffen Wisser**

Commercial Manager - Ampac Flexibles

SCHMOLZ + BICKENBACH

”

Using trueChart, our consultant was able to enhance our Qlik Sense environment and rapidly build the information dashboard we needed to monitor and manage all aspects of our business data.

**Andreas Koch**

Head of Finance & HR - Schmolz and Bickenbach
