

Liquid C2 Services

Azure Migration Services

Your simple and cost-effective move to Azure

Work with the fastest-growing Cloud Service Provider across Africa to migrate your applications, data and infrastructure to Azure. Liquid C2 Azure Migration service is vital for businesses of all sizes who look to embrace digital transformation and create a more agile and streamlined IT infrastructure.

So, whether you are crawling into your cloud journey or running through it at Olympic record speeds, we aim to unlock your businesses potential and growth all whilst taking on the duty of managing the migration.

Azure Migration services in 4 steps

1. Define the strategy.
Define and commit to a specific business, technical and organisational objectives.
2. Plan
Analyse your environment to create a plan that considers your servers, VMs, and workloads
3. Ready for migration
Prepare your environment for the migration to ensure the final cutover is smooth.
4. Govern and manage.
We ensure all industry standards and regulatory requirements are addressed.
