Prepare for cyber threats with Kyndryl Business and IT Resilience Consulting Services

Customer challenges

Organizations need to protect themselves and stakeholders against cyber events. However, in a multicloud world, businesses face several cyber-related challenges:

→ Cyber events are on the rise and growing ever more sophisticated

→ These attacks make IT systems, applications, and data unavailable—effectively shutting the business down

→ Organizations may struggle to understand the rapidly evolving cyber-resiliency landscape and how well prepared they are to survive and recover from a cyber event

→ Concerns about security and resiliency protection can hinder organizations from gaining the benefits of cloud adoption

Solution highlights

As part of the Kyndryl Business and IT Resilience Consulting Services, the Cyber Resilience Maturity Assessment (CRMA) determines your organization's ability to respond to and recover from a cyber event.

→ **Anticipate:** Benchmark resilience maturity and gain visibility into significant threats and vulnerabilities

→ **Protect:** Protect critical business data and applications in a security-rich infrastructure, by discovering vulnerabilities before they are exploited

→ **Withstand:** Discover and respond effectively to cyber outbreaks

→ **Recover:** Mitigate impact of disruption by automatically recovering critical business processes and data

Customer benefits

The CRMA provides a customized action plan for improving cyber resilience, using industry best practices.

1 Multidimensional analysis of the cyber resilience lifecycle across three domains (security, resiliency, and network), with 23 evaluation categories and 100+ controls

2 Comprehensive report that identifies gaps and vulnerabilities, provides management and control capabilities, and suggests remediation actions

3 Multicloud approach that can evaluate Microsoft Azure workloads as well as other cloud and non-cloud environments

Why Kyndryl and Microsoft?

About Kyndryl

Kyndryl is a $19 billion company with skilled professionals operating in over 60 countries. We design, build, manage and modernize mission-critical technology systems that the world depends on everyday.

We have decades of experience working with customers to deliver enterprise-grade workload analysis, migration, implementation, and managed services for the most complex workloads.

Providing undisputed leadership

6.1M mainframe installed MIPs

300K network devices managed

5,200+ WAN devices managed

3.5M LAN ports managed

67K+ VMware systems managed

14K+ SAP instances managed

3.5+ exabytes of client data backed up annually

Azure Advanced Specialization   Microsoft

→ Kubernetes on Microsoft Azure
→ SAP on Microsoft Azure
→ Analytics on Microsoft Azure
→ Microsoft Azure VMware Solution
→ Microsoft Windows Virtual Desktop

Solution Partner Designations   Microsoft

→ Solutions Partner for Infrastructure (Azure)
→ Solutions Partner for Data & AI (Azure)
→ Solutions Partner for Digital & App Innovation (Azure)
→ Solutions Partner for Modern Work
→ Solutions Partner for Security

Empowering thousands of customers

>4,000 Global customers

75% . . . of the Fortune 100 and more than half of the Fortune 500

20,000+ Microsoft Certifications

Kyndryl and Microsoft Advantage

Kyndryl and Microsoft provide the services and solutions to meet customers wherever they are on their cloud journey: on premise, across multiple clouds, or on the edge. With our joint expertise, we work with customers to manage complexity and modernize their operations for rapid business outcomes. We bring together deep design, delivery, management, and cloud technology expertise, supported by an expansive ecosystem, to unlock our customer's potential for long term business impact.
