

Of Many, One.

At New Charter Technologies, we are a family of operating companies coming together to share best practices, resources, and capabilities. Through building this at scale, we will create a caliber of business the IT industry hasn't yet seen.

NEW CHARTER BY THE NUMBERS

615 +
Employees

270 +
Engineers

2,075 +
Clients

54,130 +
Managed Endpoints

We are on a path to be the most respected Pure-Play MSP in North America. We propel our clients into the digital world by harnessing the power of emerging technologies to align technology to their strategic and operational initiatives.

The Launch of New Charter Technologies

New Charter Technologies was born in September of 2019. Mitch Morgan, CEO of New Charter, partnered with private equity firm, Oval Partners to align the vision and propel the idea into a reality. Four founding partners - PennComp, ActiveCo, Apex, and DCG - came together, setting the stage for fast-growth years to follow. The Equity Partnership Model signifies long-term trust, strategy, collaboration, and relationships.
