

# Accelerating Cloud Adoption for Azure efficiently and effectively

Migrate, Manage, and Maximize Azure and on-prem infrastructure from one single platform faster and more cost-effectively

**The challenge:** Migrating to the cloud is essential for transforming businesses and delivering new business models and experiences. However, organizations everywhere face the challenge of shrinking timelines, hard-to-find technically qualified resources, and a fragmented tools market, not to mention enough budgets.

## Trianz Offerings

Trianz is a cloud migration pioneer and lead the initiatives by leveraging IP led services to automate and fast track the cloud adoption journey

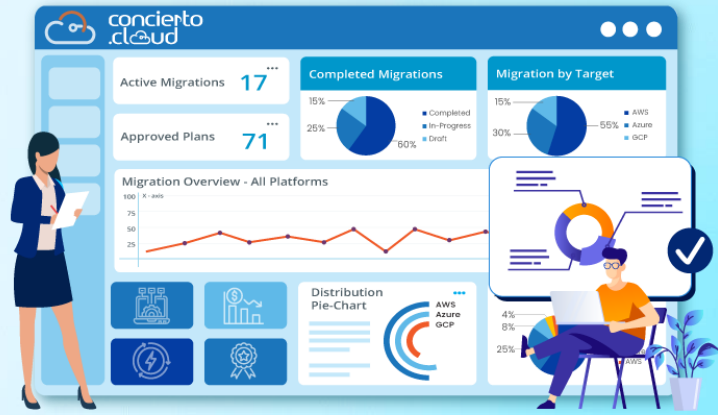

Trianz IP led services allows you to migrate applications, data, and infrastructure to Azure and manage your hybrid cloud from one single pane of glass view.

# MIGRATE

Migrate to the Azure cloud in less than six weeks. Trianz offerings are designed to streamline bulk transitions from on-premises to Azure with minimized risk and downtime. Achieve migration speeds 50% faster than the nearest competitor.

## Trianz MIGRATE: Service Offerings

### # 1 Assessment & Recommendation

- Automated discovery and assessment that blueprints existing IT infra
- Current state infrastructure and applications landscape
- Cloud compatibility analysis
- Assessment & TCO analysis
- Affinity mapping
- Recommendations on the migration roadmap

### # 2 Mobilize & Prepare Landing Zone

- Create a landing zone architecture specific to client requirements (HLDs)
- Automate the target Landing Zone deployments (Platform and Workload)
- Document the design principles, compliance, and security, monitoring, backup policies in the design documents
- Perform knowledge transfer to customer SMEs

### # 3 Migration Planning and Execution

- Automated assessment & TCO analysis
- Infrastructure discovery capturing the dependencies
- Application waves and move-groups
- Automated Azure Landing Zone Setup
- Sequence and schedule the migration
- Migration Execution
- Pre-UAT testing before cutover
- Cutover
- Migration governance

**Estimated  
Fee for  
Rehosting**

**Environment**  
#Application : 1  
Up to 10 VM's

**Duration**  
**4 to 6 Weeks**

**Fee**  
**\$25,000**

**Pay for Outcomes, not for Time & Material billables**

**Deliver faster cloud migrations and services while reducing headcount and total hybrid cloud costs by up to 50%**

**Thank You**
