

# Managed Extended Detection & Response

We simplify the complex by leveraging a consolidated technology suite and rapidly detecting threats across the modern attack surface. Protecting you around-the-clock is made possible by the SCC Cyber MXDR service, which brings together the best technology and highly skilled experts to strengthen your security posture.

Protecting your:

- Endpoints
- Servers
- Identities
- Containers
- Email & Documents
- Networks
- Cloud Applications
- Multi-Cloud

## Key Benefits

- 24x7x365 Detection & Response to rapidly contain potential threats and reduce the impact of successful breaches.
- Alleviate your internal resources to increase your team's productivity without incurring the costs of setting up and maintaining an internal cybersecurity team.
- Detect threats using industry leading intelligence with context driven indicators relevant to real adversaries and your industry.
- We are a Microsoft Security Solutions Partner and are proud to hold all four specializations in the security space strengthening confidence in our expertise and solidifying our position as a leading provider of managed security services.
