

MICROSOFT TEAMS ALLOWS YOU TO ACHIEVE MORE, TOGETHER.

As an early adopter of Microsoft Teams, Kraft Kennedy has a deep understanding of its power to boost your firmwide collaboration and productivity. How can Teams transform your firm?

Team collaboration | Audio/video conferencing | Instant messaging

TEAMS DESIGN AND PLANNING WORKSHOP

Personalized one-day licensing and deployment workshop, including education on Teams and the entire Office 365 suite

Basic agenda:

- Create a Teams roadmap including leveraging Office 365 services you already use
- Plan for licensing and desktop deployment
- Align firm governance directives to Teams

Meetings Bootcamp add-on:

- Plan for dial-in meeting functionality
- Develop a process to easily share recorded meetings in Microsoft Stream
- Configure recurring meetings in Teams to facilitate automated invitations
- Plan for personal cameras, headsets, and meeting room hardware to create meetings accessible from home or the office

Security Roundup add-on:

- Receive a security review of your existing Teams deployment
- Understand and regain control of guest access within your Teams deployment
- Control OneDrive for Business and SharePoint Online external sharing
- Control documents shared within Teams with Azure Information Protection (AIP)

TEAMS QUICK START

Is remote access a challenge? Pilot in a day, roll out in a week.

Kraft Kennedy approach:

Plan > Configure > Deploy > Support

Roll out Teams quickly and securely

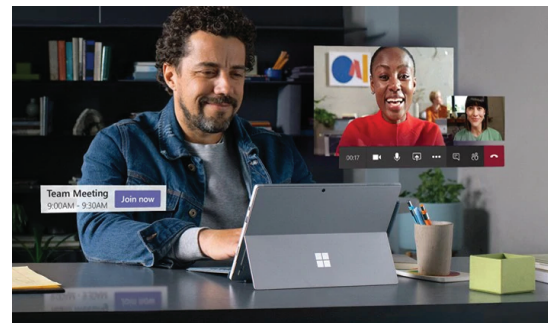

Leverage your existing investment for Office 365 customers

Integrate Teams management into existing processes

TELEPHONY

Replace or extend your existing telephony system with Teams

- Keep your existing numbers
- Plan for and establish telephony service hosted by Microsoft
- Extend your phone functionality to your desktop and mobile clients
- Deploy Teams desk phones to users who want an updated traditional experience
- Perform telephony management within the Teams console

AUTOMATION & MANAGEMENT

- Develop automation to facilitate the auto-creation of teams and channels
- Automatically add the appropriate members into new teams, while considering ethical walls
- Create standardized templates for teams and channels
- Report on stale teams to facilitate cleanup
- Integrate existing business processes leveraging Office 365 or third-party services into Teams
