VITALYST®

An Alithya Company

Power Platform Enablement Service

Vitalyst helps companies navigate the continuously evolving workforce by enabling employees to readily innovate new and tailored solutions through the Microsoft Power Platform. Empower your employees through the integrated suite of tools to create custom applications, automate processes, visualize data, and more with no, low and pro code solutions all while improving productivity, reducing costs and maximizing ROI. Do more with less to stay on the cutting edge with Vitalyst.

WEEKS 1-6

Establish Guardrails with a Center of Excellence:

In this six-week program, Vitalyst helps customers plan and strategize on how they can implement the Power Platform into their environment. This includes defining your vision, strategic goals, roles & responsibilities involved, governance, and training strategies.

- Educate on the governance features available for the Power Platform, including DLP and Azure Conditional Access.
- Walk through of the installation process for getting the Center of Excellence tool-kit up and running in your environment..
- Provide Instructor-led training for leveraging the various tools in the Center of Excellence.

- Introduce techniques to accelerate the adoption of Power Apps with a thriving community in your environment.

Outputs:
- Digital guardrails in place so that citizen developers can create with confidence
- Fully operational Center of Excellence

WEEK 7

Build a Roadmap to Modernization with Envisioning Workshops:

In this one-day workshop, Vitalyst will deliver Envisioning Workshops with business decision makers to create real-world scenarios that serve as the blueprint to modernizing your business processes.

- Identify and prioritize business challenges for process modernization.
- Deep dive into high-priority transformation scenarios to help customers, employees, operations, and products achieve ongoing innovation.

Output:
- Transition Report that contains envisioned use cases, action plans to make use cases a reality, and change management tactics for adoption

WEEKS 8-20

Nurture Creators with Ongoing Training and Support:

In this ninety-day campaign, Vitalyst empowers customers and guides them through designing and implementing a communications and training plan for increased adoption of the Power Platform.

- Create a communications plan by designing and developing a launch plan, creating adoption assets, and by releasing assets to drive awareness.
- Design and develop training plan, create training materials, and provide customized training for your predefined personas.
- Hands-on workshops for Power BI, Power Apps, and Power Automate.

- Robust, structured training curricula from beginner to expert level in Power Apps, Power Automate, Power BI, and Power Pages.
- Live, ongoing consulting, support, and self-help learning resources through our Adaptive Learning platform to assist citizen developers as they make envisioned use-cases a reality.
