

IQDox

Intelligent Workflows and Digital Documents Platform

IQDoX

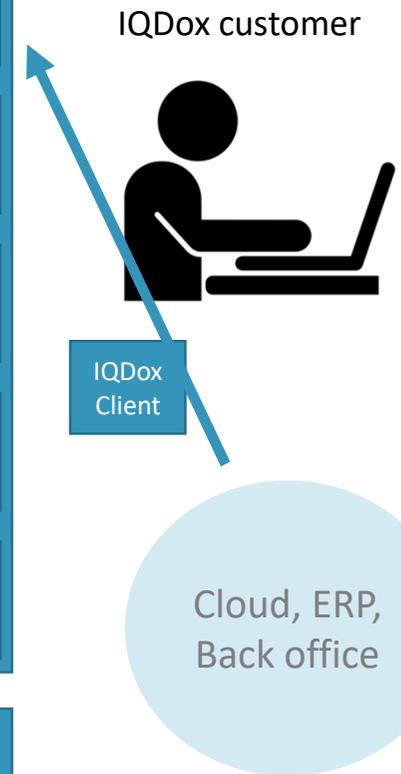

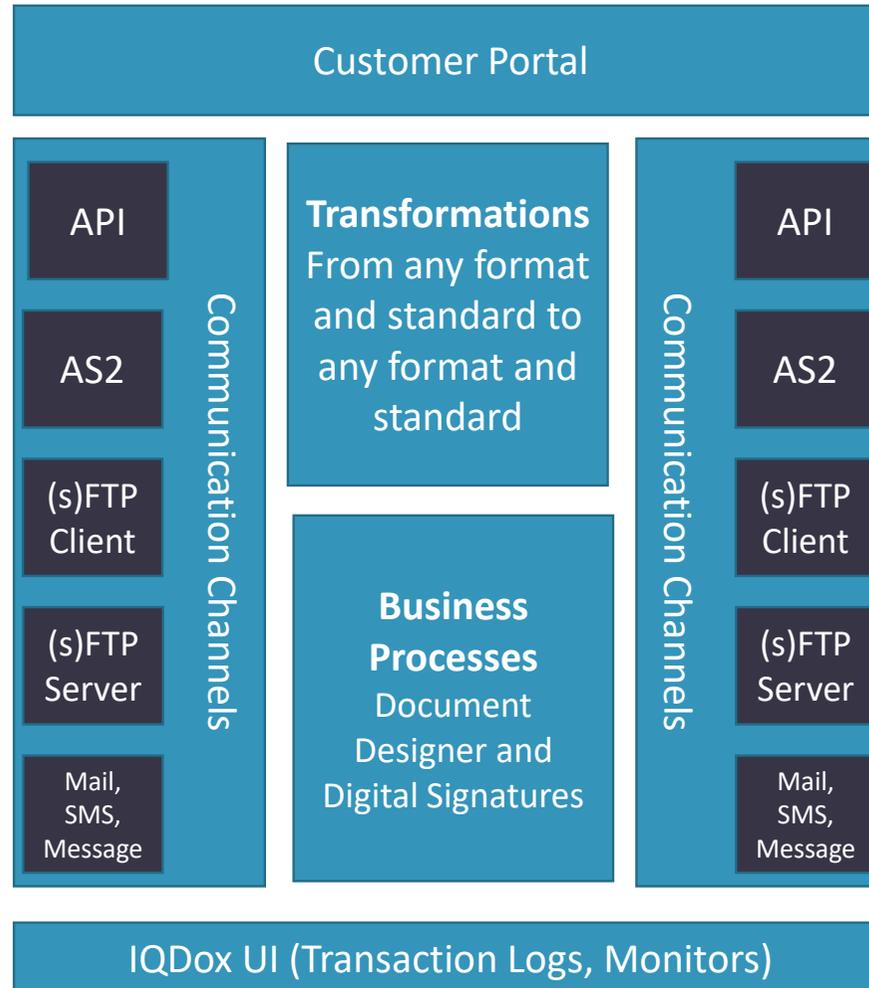

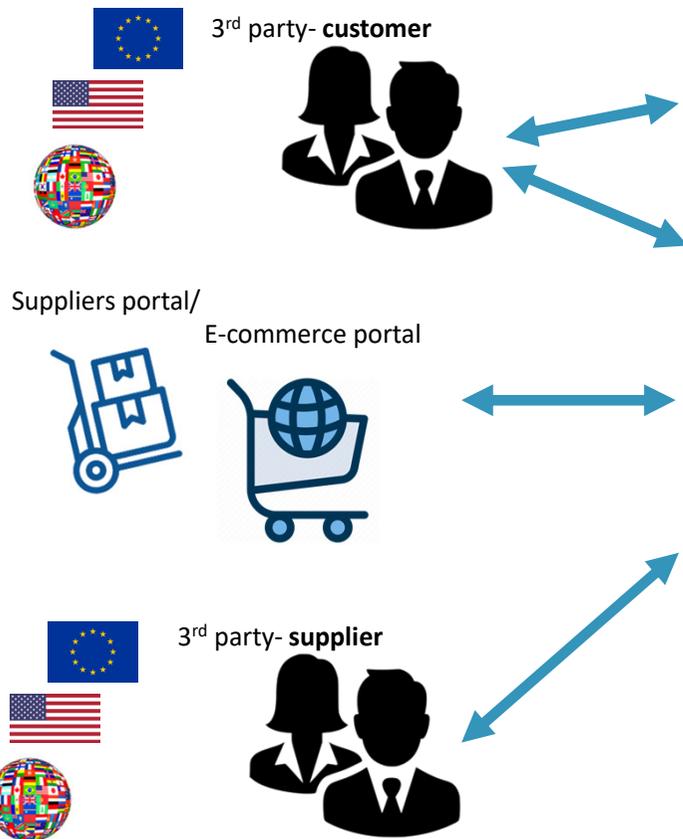

01 an Integration Cloud Platform as a Service (iPaaS) allowing users to setup and execute complex B2B workflows.

02 delivers a cloud service for application, data, process, and service-oriented architecture (SOA) integration scenarios.

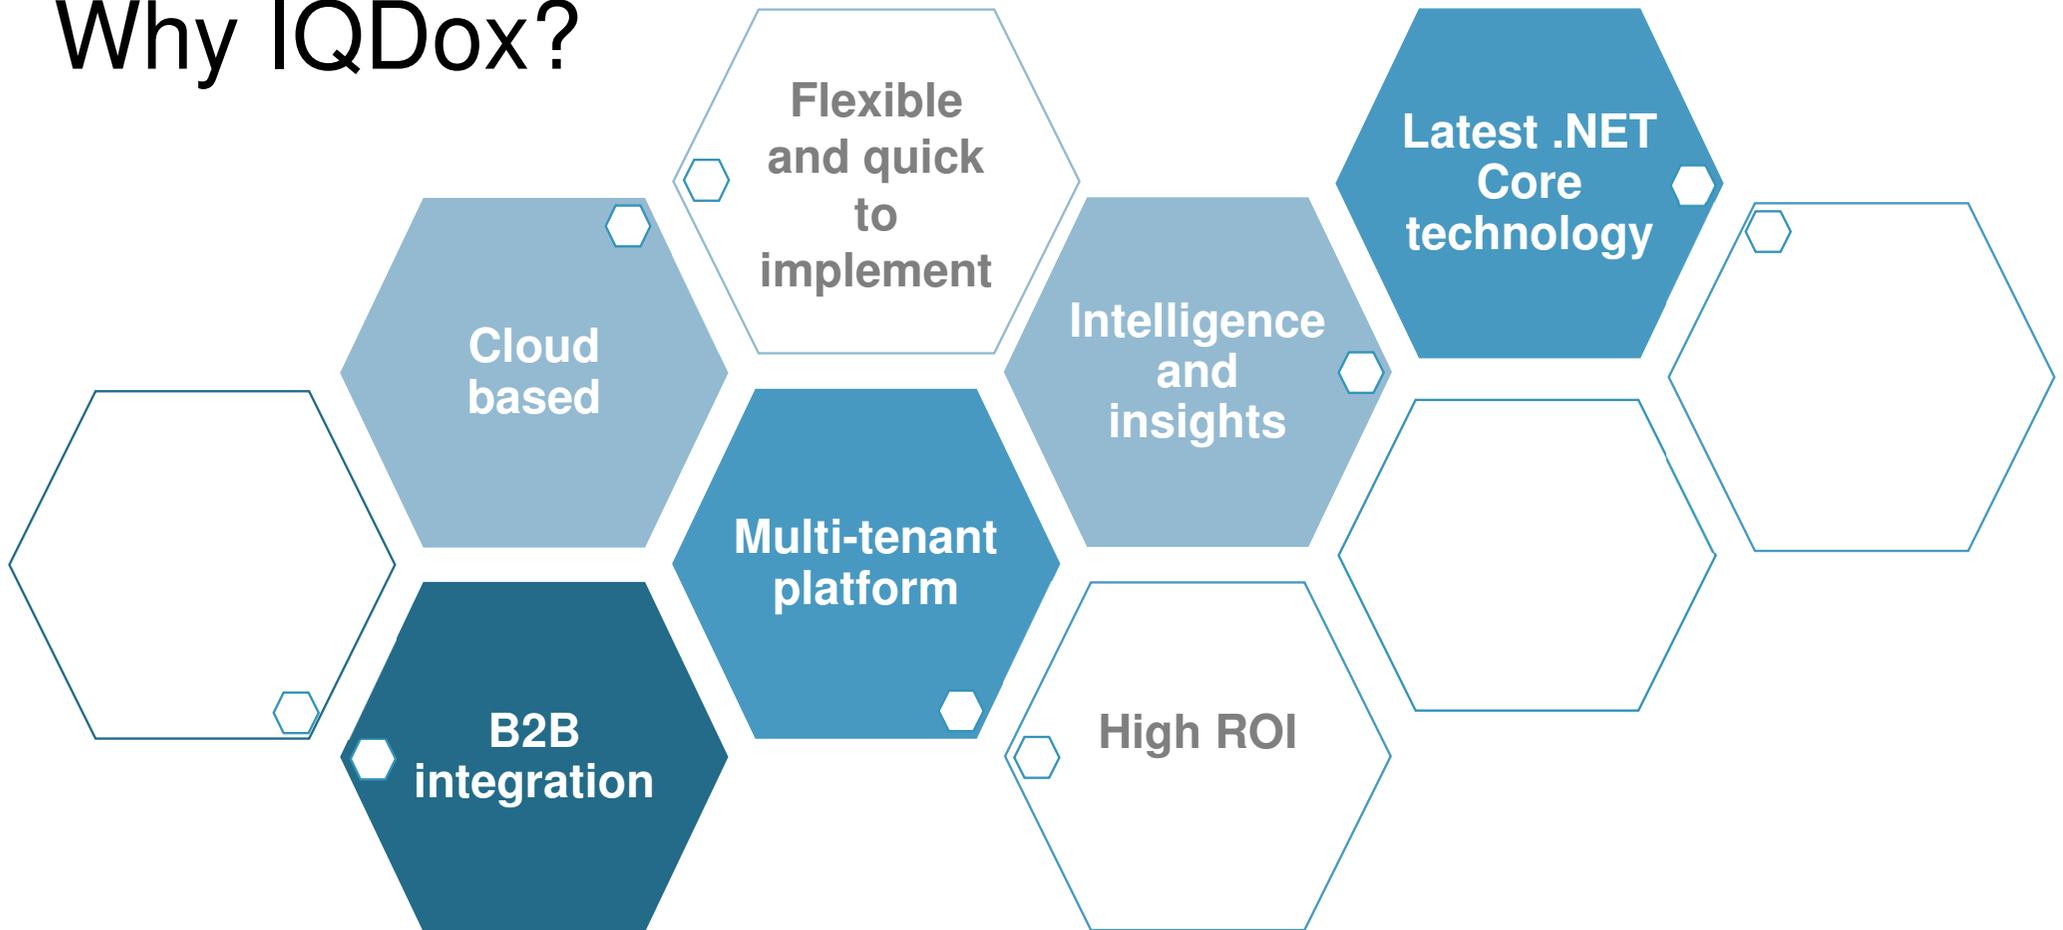

03 a multi-tenant platform that supports cloud-to-cloud, cloud-to-on-premise, on-premise-to-on-premise and B2B integration.

04 real time monitoring of interface traffic, alerts and proactive maintenance.
