

Entra Permissions Risk Assessment

90% of identities using less than 5% of permissions granted.

“Discover, remediate, and monitor permission risks for any identity or resource.”

Microsoft Entra Permissions Management

Microsoft Entra Permissions Management is a cloud infrastructure entitlement management (CIEM) product that provides comprehensive visibility and control over permissions for any identity and any resource in Microsoft Azure, Amazon Web Services (AWS) and Google Cloud Platform (GCP).

EPM detect, right-size, and monitor unused and excessive permissions and enables Zero Trust security through least privilege access in Microsoft Azure and multi-cloud clouds.

Mazzy Technologies will leverage Entra Permissions Management in this engagement to discover, evaluate, manage and monitor permissions risk across your multcloud infrastructure.

Challenges...

Understands how Permissions can impact the attack surface risk in your cloud infrastructure

How to get a comprehensive visibility into permissions assigned to all identities

Understand how to remediate and prevent identities from being compromised

MT's Entra Permissions Risk Assessment phases:

Planning

Experience the value of Microsoft Entra Permission Management

Report

Risk Assessment Report of permissions in your environment for excessive and unused permissions

Collaboration

Integrate Entra ML-powered Alerts for collaboration of Teams activities

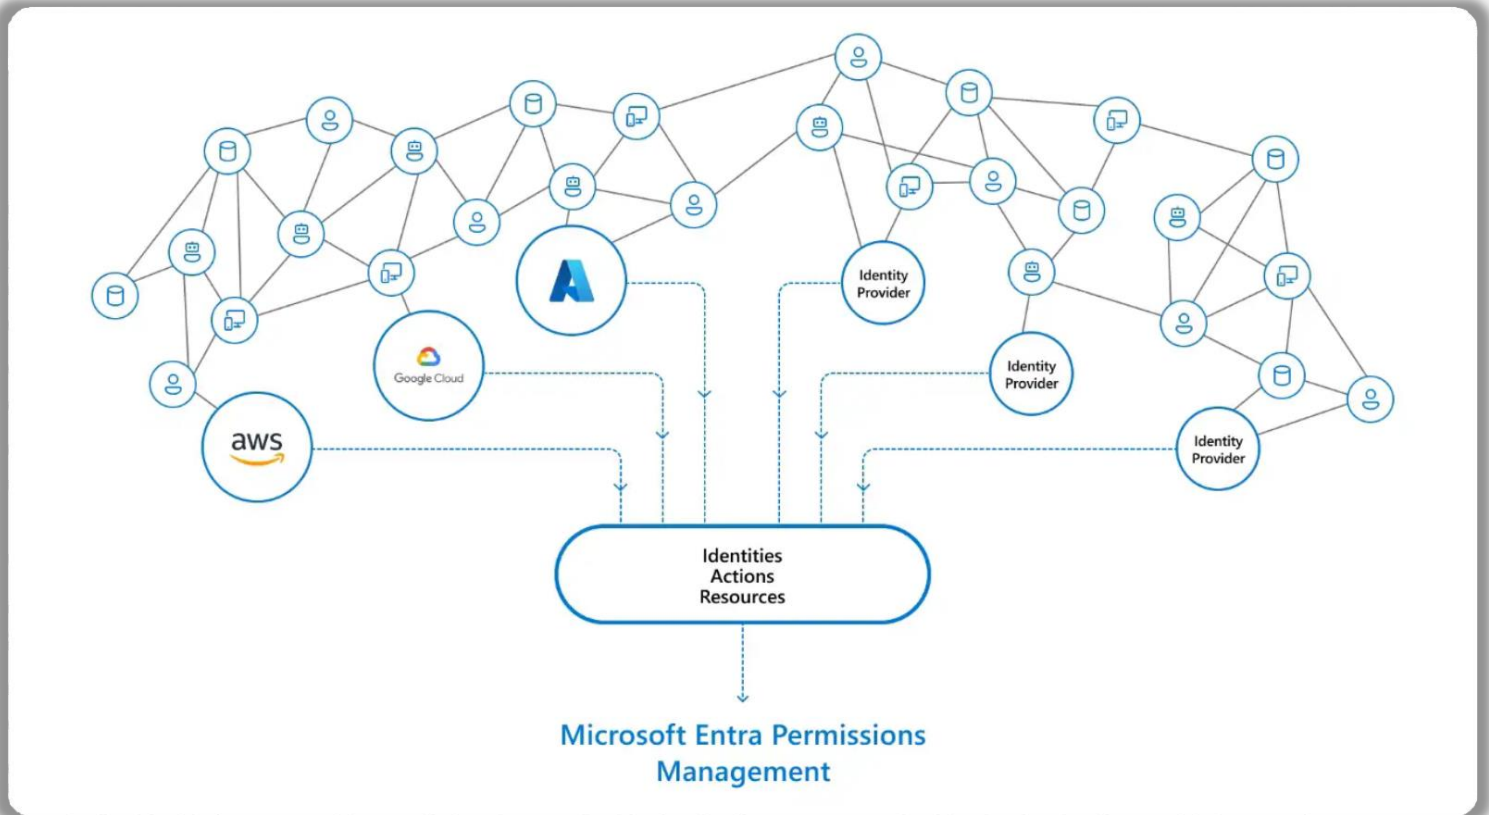

Action

Provide next steps action for increasing security posture

Microsoft Entra Permissions Management allows you to...

- Get a multi-dimensional view of your risk by assess identities, permissions and resources.
- Automate least privilege policy enforcement consistently in your entire multicloud infrastructure.
- Prevent data breaches caused by misuse and malicious exploitation of permissions with anomaly and outlier detection.

*Resources supported are compute resources, container clusters, serverless functions, and databases across Amazon Web Services, Microsoft Azure, and Google Cloud Platform.

We'll work with you to:

- ✔ Evaluate where you are today and where you need to be to meet your risk mitigation goals
- ✔ Identify the areas of greatest risk for mitigation so you know where to focus your resources
- ✔ Improve your risk posture with actionable insights and prescriptive recommendations

Why MT?

When it comes to identity and access management, you need an experienced partner.

We are a leading global professional services company, providing a broad range of services and solutions in strategy, consulting, digital, technology and operations. Combining unmatched experience and specialized skills across more than 12 industries and all business functions.

With 1,000+ people serving clients in more than 120 countries, Mazzy Technologies drives innovation to improve the way the world works and lives.
