

Microsoft Entra

Secure access for a connected world

Microsoft Entra is the product family name for all identity and network access solutions from Microsoft. It's part of the Microsoft Security portfolio, which also includes Microsoft Purview for compliance, Microsoft Priva for privacy, and Microsoft Defender for Threat Protection and Cloud Security, and Microsoft Sentinel for SIEM (Security Information and Event Management).

Today's digital landscape and its challenges

- > Increasing volume and sophistication of attacks
- > Overlapping identity and access security tools
- > Rapid expansion of diverse access points

Protect access to any app or resource

Safeguard your organization by protecting access to every app and every resource for every user.

Provide only necessary access

Discover and right-size permissions, manage access lifecycles, and ensure least-privilege access for any identity.

Secure and verify every identity

Effectively secure identities including employees, customers, partners, apps, devices, and workloads across any environment.

Simplify the experience

Keep your users productive with simple sign-in experiences, intelligent security, and unified administration.

Identity and access management	New identity categories	Network access
