ERP>Retail

The last ERP System you
will ever have to invest in!

**BOOST ONLINE
SALES BY
SEAMLESSLY
INTEGRATING YOUR
WEBSITE AND
SALES CHANNELS**

ERP>Retail

ERP>Retail has been designed from the ground up for Omni-Channel & Internet Retailers Including: flooring, furniture, specialist retail, brand owners, jewellers, and fashion.

Keep up with the ever-changing face of retail.

ERP>Retail comes with full eCommerce capabilities that can bring considerable benefits and efficiencies to any retailer by managing everything from inventory financials to warehousing etc., all from one central location.

Meet the expectations of the modern online shopper.

ERP>Retail allows you to update your customer at every step of the order process, creating an easy, seamless customer journey right through from 'adding to basket' to the receipt of the goods.

Reduce errors and improve customer service.

The risk of human error is significantly reduced due to the automated data transfers from one system to the other.

Have the capability of offering quick and easy returns.

Returns are inevitable for any eCommerce business; using ERP>Retail makes the returns management process as easy as creating the sales transaction. You can handle the entire order fulfilment process, including returns.

Boost your online sales whilst reducing human error, increase efficiency and deliver a better customer experience.

ERP Retail functionality includes a seamless integration with your website and Sales Channels

A typical ERP Retail ecommerce customer journey
