

INTELLIGENCE THAT EMPOWERS.

Amplify your organisation's intelligence using the latest in Azure OpenAI services.

WITH THE ADVENT OF THE LARGE LANGUAGE MODELS, ORGANISATIONS ARE GRAPPLING WITH EXPLODING DEMAND FOR COHERENT, COHESIVE AND COMPREHENSIVE AI SOLUTIONS

Microsoft Azure, OpenAI and Amplified Intelligence

Microsoft provides a holistic platform that allows you to integrate with the latest in AI technology, leveraging models that power popular solutions like ChatGPT and Microsoft CoPilot. By collating your internal data using Cognitive services and engineering effective prompts, you can enhance your employee and customer experiences using AI technologies. Interfacing this capability with your digital ecosystem, your stakeholders are empowered to easily find the information they need in a communications channel they are familiar with.

WHY CUSTOMERS USE THE OPENAI ACCELLERATOR

This engagement is relevant for you if:

- Want to minimise customer queries using modern AI solutions.
- Have private data you would like to expose to AI services
- Want to introduce more natural interfaces with technology for your employees
- Have a desire to introduce intelligent apps into your organisation

DESIGN AND EVALUATE

Understand the concepts and how to manage OpenAI for your organisation

Identify use cases and scenarios that OpenAI can assist your business

Understand best practices for Adoption of OpenAI services

Build a view of how to securely, deploy and adopt Azure OpenAI services.

DEPLOY AND INTEGRATE

Deploy Arinco's OpenAI solution accelerator

Integrate with Azure Cognitive Services to enhance large language model responses

Build robust operating frameworks with standardised configuration & controls

Accelerate adoption of Azure OpenAI services using proven industry experience

MONITOR AND REPORT

Transition from development to operations

Monitor and Report on OpenAI Usage

Identify areas of improvement and future roadmap of additional capabilities

Manage, operate then plan for the further deployment of Azure OpenAI for other line-of-business processes

Arinco believe that Intelligence, whether it be Artificial, Augmented or Human - **is the core to the success of any business.**
