Certified "In a Day" Workshop Delivery Partner

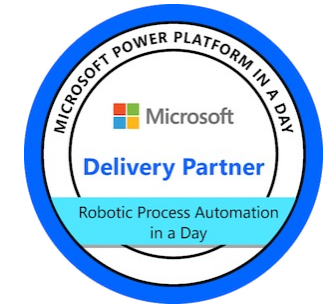

SkyPoint Cloud is one of a few partners within Microsoft's global partner ecosystem to earn the distinguished "Delivery Partner" status in multiple categories

Microsoft's In a Day Workshop series is a set of training sessions offered by Microsoft through its trusted partner network designed to help users quickly and effectively implement certain Microsoft products and technologies.

The workshops are typically led by Microsoft experts who have extensive experience working with the technology being covered and can provide participants with valuable insights and best practices.

Technologies covered in xIAD workshops include: Power BI, Power Automate, Power Virtual Agents, Power Apps, and more.

Power BI Expertise

Self-serve your end-to-end analytics needs

We help your organization develop your full data infrastructure in Microsoft Power BI and promote adoption through training and pragmatic capabilities long-term.

Our Power BI Capabilities:

✓ **Automated Reporting**

We help you save time by automating and streamlining reports to enable faster data-driven decision-making.

✓ **Artificial Intelligence**

We implement pre-trained machine learning models to enhance data analytics and preparation.

✓ **Complex Data Modeling**

We link various data tables in your Power BI reports and help you connect the dots.

✓ **Data Governance**

We implement administration and governance best practices to promote trust in data.

✓ **Digital Transformation**

We guide your team to leverage data-driven insights to support business transformation.

✓ **Embedded BI**

We embed a Power BI dashboard in your product or website to share or monetize data insights.

✓ **Seamless Migration**

We take stock of your business intelligence tools and consolidate everything in Power BI.

✓ **Training and Mentoring**

We help your team get the most out of Power BI and increase adoption across the organization.

Our Team

We are data modeling and data visualization experts that are keen on building efficient reports that drive business decision making.

DIAD Power BI Workshop

Make Everyone a Citizen Developer & Achieve Rapid Transformation

Presenters:

Tina Gaut

Steve Mika

Power BI is a business analytics service that gives you a single view of your business data, with the ability to monitor the health of your business using live dashboards, create rich interactive reports and access your data on the go, from your mobile devices.

This 1-day workshop covers the capabilities of Power BI. The goal of this informational session is to help you understand how to analyze your data in a rich and compelling way. Whether you are evaluating its ability to meet organizational requirements around data visualization and analysis or are looking to learn how it can help you be more efficient and make a greater impact on the work you do every day, this is the workshop for you.

At the end of the day, attendees will better understand how to:

- Connect to, import, and transform data from a variety of sources
- Define business rules and KPIs
- Explore data with powerful visualization tools
- Build stunning reports
- Share dashboards with their team & business partners, and publish to the web

Other Training & Mentoring

Make Everyone a Citizen Developer & Achieve Rapid Transformation

This isn't some ordinary training. When you train with us, you learn real-world techniques, gain in-demand skills, and experience a magical transformation that drives adoption success.

Meet Our Lead Instructor

[Brian Grant](#) is a masterful Senior Analytics Consultant by day, and a Power BI legend by night.

He teaches visualization that is focused on simplicity and understandability of the right measures, paired with a clean compositional layout

Dashboard in a Day

Dashboard in a Day Reviews

"I just gotta say... I did a DIAD on Friday with another organization and I'm here doing another one with you because it was a horrible experience. ...this has been amazing. It held so much more value and having alternate speakers throughout the day to speak to their personal strengths was great. Brava and Bravo. Thank you."

"SkyPoint did a wonderful job! Tina, Rachel, and Steve were informative and fun presenters."

"Five stars on this Power BI course! SkyPoint CSG's seasoned consultants made the learning fun and grounded in practical application. It's perfect for individuals or teams that want to quickly gain a base layer of skills they can use immediately. They'll also leave the course with a ton of resources (and the confidence) to keep learning as they go back to the office. Excellent ROI."

"SkyPoint Cloud's delivery. I've taken DIAD previously with another organization that fell short. SkyPoint was amazing."
