A Fully Managed Postgres Database  
as a Service on Azure

Available through Azure Marketplace

## The best fully managed Postgres for enterprises moving to Azure

BigAnimal is a fully managed Postgres database-as-a-service on Microsoft Azure. With built-in Oracle compatibility, a range of SLA-backed availability options to meet all of your business needs, and fully managed by Postgres experts.

Supporting the most demanding applications, EDB's BigAnimal makes it easy to set up, manage, and scale your databases. Achieve faster time to value when you move to EDB's fully managed Postgres service.

### EDB's BigAnimal helps shift workloads to Azure, modernizes infrastructure, and improves business outcomes.

Run your mission-critical applications with confidence. BigAnimal offers 99.99% high availability out of the box. With built-in high availability, spend less time worrying about downtime and more time developing your applications.

Reduce Oracle costs and modernize your applications with BigAnimal's built-in Oracle Compatibility. As much as 80% lower cost of database licensing, maintenance and support compared to Oracle. EDB BigAnimal makes Postgres look, feel and operate more like Oracle, so when you migrate, your developers will have much less code to rewrite and your DBAs can hit the ground running.

Reduce time and risks when migrating off Oracle by leveraging comprehensive migration tools. Keep your code and accelerate your migration to Azure.

Get greater control and transparency over your data. BigAnimal runs in your Azure cloud account and seamlessly integrates with Azure tools.

Take advantage of your existing spend commitments on Microsoft Azure.

Focus on your business and leave your database to BigAnimal supported by EDB's Postgres Experts. World-class expertise and support provided by the largest dedicated global Postgres company with over 5,000+ lifetime customers including 28% of Fortune 500, and responsible for 30% of all Postgres development. With EDB supporting your Postgres database-as-a-service, customers will always receive top of the line support.
