

D365 Supply Chain Management: One-Day Assessment | Consulting Offer | Intech Systems

Is your business struggling to manage its supply chain effectively? Are you looking for ways to optimize your operations and improve customer satisfaction? Look no further than Dynamics 365 Supply Chain Management. Our team of experienced consultants at Intech can help you unlock the full potential of this powerful software and streamline your supply chain from end to end. From mitigating supply chain issues and integrating with other business functions to deploying and maintaining the D365 Supply Chain Management, our experts are here to guide you every step of the way.

Join us for a comprehensive discussion of Dynamics 365 SCM capabilities and how they can benefit your business. Our agenda includes:

1. Overall AS-IS discussion of Dynamics 365 SCM capabilities.
2. Analysis of mitigating supply chain issues in existing business areas.
3. Discuss integration and customization with other business functions.
4. Discuss deployment and maintenance of Dynamics 365 SCM.
5. Discuss the key capabilities of financial management.
6. In-depth discussion of different modules.
7. Q&A and wrap-up.

Throughout our consultation, we'll deliver the following:

1. A recommendation on whether Dynamics 365 Finance & SCM fits your unique business needs.
2. Identification of the modules that will help identify supply chain issues to ensure smooth business operations and maintain customer satisfaction.
3. Overall third-party integrations and additional customization if required.
4. A strategic implementation plan.
5. Overview of capabilities, including cash flow management, accounts receivable and payable, and financial forecasting.
6. Discussion of different modules like master data, manufacturing & production, QC and compliance.

Don't miss out on this opportunity to transform your supply chain operations. Contact us today to schedule your consultation!
