

The All-In-One Toolkit For Event Planning & Communications

ABOUT MEYLAH / SPEAKER ENGAGE PLATFORM:

Speaker Engage is an affordable, easy to use cloud-based platform that makes it fast and easy for you to manage your speakers, agenda, email communications and sponsors all in one place saving time, money and resources. A back-office software of your events.

What our customers are saying:

“Our administration burden with events has been extremely reduced with SpeakerEngage platform. As event planners we focus on delighting speakers instead of chasing them.”

WHAT WE OFFER

Speaker Engage offers three core functionalities:

- 1. Speaker Curation & Management:** Manage your speaker profiles with great ease with SpeakerCurator. Get notified about the new speakers that we have added to our database. Send direct messages to any speaker without any hassle. Collect headshot, bio and presentation using automated workflow
- 2. Speaker Promotion Management:** Increase event attendance by helping speakers promote your events using our SpeakerPromoter functionality
- 3. Event Agenda Management:** Using AgendaPlanner organize your agenda and associated speakers with higher transparency with teams and decision makers. Plus, you can also schedule the appointments on calendar and track speaker commitment.

Why Azure?

Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools.

Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a \$1b+ investment in security R&D and 3,500 cyber security experts, security is foundational for Azure.

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.
