What is POPICheck?

POPICheck is a cloud-based rapid assessment tool that helps organisations gauge their readiness for compliance with the Protection of Personal Information Act (POPIA), South Africa's data protection law.

Core Features

4 Key Areas
To track progress towards POPI compliance

Policy & Strategy

**Lifecycle & Process**

Security

People

POPICheck™ quantifies your progress towards POPI compliance across 4 key paradigms, Policy & Strategy, Lifecycle & Process, Security and People.

Identify key risks and areas for improving the organisation's ability to achieve POPI compliance.

Generates prioritized corrective actions to improve POPI compliance success.

Generates a date and time stamped audit report in PDF format to print, email or share with stakeholders.

Update your answers to revise your score at any time as you progress towards compliance.

Teams can manage tasks and collaborate on your POPI initiative using Microsoft SharePoint Online and Planner.
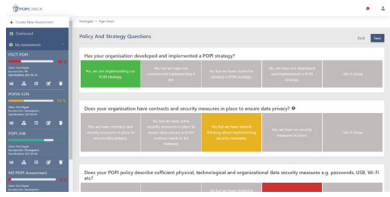

How does it work?

POPICheck is available as a cloud-based SaaS (Software as a Service) solution

• It is hosted in Microsoft Azure
• Signup via the Azure Marketplace and log in to the app
• Create an assessment and answer the questions
• View your score and results in a graphical dashboard view or print a report
• Review the corrective actions and assign tasks to remediate them
• As you complete tasks, return to the app and update your answers
