QBot

antares

a member of the

CLOUD collective

An AI-infused world-first chatbot built specifically for education.

About QBot

In partnership with Microsoft and the University of New South Wales, Antares Solutions developed "Question Bot" aka "QBot", a world-first, AI-infused, Microsoft Teams integrated chatbot that answers student queries.

QBot is an automated program that conducts a conversation, through text or speech, and delivers a contextual response based on the interactions in the past between the students and tutors. QBot builds a learning community for students to engage with 24/7 support.

The solution is leading the way in a global change in how higher education is delivered. For forward thinking education institutions, tools like QBot have limitless potential from improving student engagement, to achieving better learning outcomes that allow students to reach their full potential.

24/7 availability

Increased student engagement

Instant answers for students

Why do you need QBot?

Group problem solving

Huge time savings for educators

AI based chatbot solution

Self-building knowledgebase

About Antares

Antares has established itself as a highly accredited Microsoft Gold Partner who specialise in delivering expertise across three practise areas: Data and AI, Modern Workplace and Custom Application Development. Antares is also a founding partner of the Cloud Collective, a strategic alliance of three Microsoft Gold partners who provide end-to-end technology solutions.

Success story

QBot is transforming how students learn, interact and collaborate.
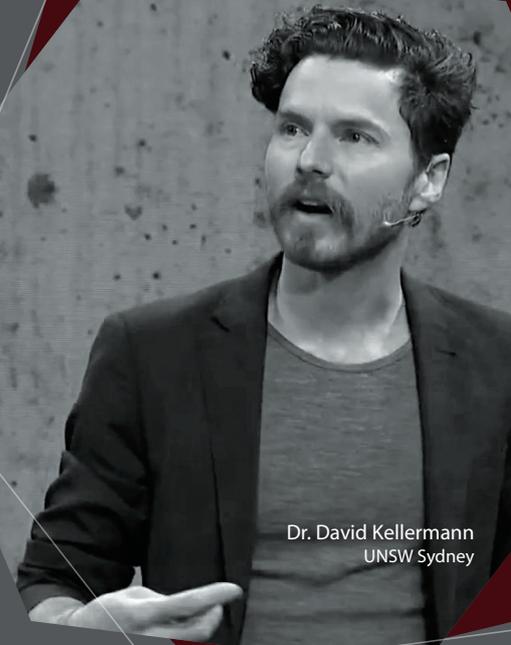

Dr. David Kellermann
UNSW Sydney

The University of New South Wales implemented QBot with an overwhelmingly positive result. The university has increased students pass ratesfrom 65% to 85%.

QBot has also received an amazing mention by Satya Nadella in his Annual Report of 2019, highlighting the progress and impact the solution has made. He says, "At UNSW Syndey students report that they are happier and more engaged and say they feel as though they are part of a single learning community."
